Abstract: To meet the goals and objectives that demonstrate the U.S. Environmental Protection Agency (EPA’s) and the Administration’s commitment to achieving environmental justice and embedding environmental justice into Agency programs, EPA released the Thriving Communities Grantmaking Program funding opportunity. The program will provide about \$600 million in 11 cooperative agreements funding to “Grantmakers” who will function as pass-through entities for the Environmental Justice Thriving Communities Subgrants (2 CFR parts 200 and 1500). The pass-through model removes the requirement of applying through the federal grants process and decreases the amount of time it takes to award federal funds. The Grantmakers will collaborate with EPA to design and build their own processes to receive and evaluate applications to fund the initial development of community-led environmental justice projects. With this Information Collection Request (ICR), EPA seeks emergency clearance for three Grantmakers to solicit applications for their first round of subgrants to be launched in September 2024. If the information requested under this emergency clearance were not collected, EPA would have no mechanism for selecting and distributing subaward grants. Without this activity, the central programmatic objectives of the Environmental Justice Thriving Communities Grantmaking Program cannot be met. The six-month emergency clearance period will cover the first round of subaward applications that will be solicited by three Grantmakers in September 2024. Subsequent rounds of applications for these three Grantmakers will be authorized via a Standard ICR package for the Grantmaking Program that will

be submitted for review via the customer ICR approval process.

Form Numbers: None.

Respondents/affected entities: Respondents will include entities who are eligible to receive subawards, including community based nonprofit organizations, Puerto Rico, U.S. Territories and Freely Associated States, Native American organizations, local governments, and institutions of higher education.

Respondent’s obligation to respond: Voluntary.

Estimated number of respondents: 1,155 (total).

Frequency of response: Once.

Total estimated burden: 23,975 hours (total). Burden is defined as 5 CFR 1320.03(b).

Total estimated cost: \$1,286,331 (total), which includes \$43,989 annualized capital or operation & maintenance costs.

Requested approval date: September 16, 2024.

Director, Information Engagement Division.
