

whenever we propose to authorize take for endangered or threatened species, in this case with the NMFS AKRO.

Four marine mammal species, fin whale, humpback whale (Mexico Distinct Population Segment (DPS)), beluga whale (Cook Inlet), and Steller sea lion (Western DPS) occur in the project area and are listed as threatened or endangered under the ESA. The NMFS AKRO issued a Biological Opinion under section 7 of the ESA on the issuance of two IHAs to Furie under section 101(a)(5)(D) of the MMPA by NMFS OPR. The Biological Opinion concluded that the action is not likely to jeopardize the continued existence of these species and is not likely to destroy or adversely modify their critical habitat.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216-6A, NMFS must evaluate our proposed action *i.e.*, the issuance of two consecutive IHAs) and alternatives with respect to potential impacts on the human environment.

NMFS prepared an Environmental Assessment (EA) and analyzed the potential impacts to marine mammals that would result from Furie's natural gas activities. A Finding of No Significant Impact (FONSI) was signed on September 12, 2024. Copies of the EA and FONSI are available at <https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-oil-and-gas>.

Authorization

NMFS has issued two consecutive IHAs to Furie for the potential harassment of small numbers of 12 marine mammal species incidental to Furie's natural gas activities in Cook Inlet, Alaska, that includes the previously explained mitigation, monitoring and reporting requirements.
