Annual Burden Hours: 10.

Needs and Uses: This information collection is necessary to provide for protection of information or activities with national security significance. As such, this information collection requires contractors to comply with the notification process in the contract clause at DFARS 252.204-7010, Requirement for Contractor to Notify DoD if the Contractor's Activities are Subject to Reporting Under the U.S.-International Atomic Energy Agency Additional Protocol.

Under the U.S.-International Atomic Energy Agency (IAEA) Additional Protocol, the United States is required to declare a wide range of public and private nuclear-related activities to the IAEA and potentially provide access to IAEA inspectors for verification purposes. The U.S.-IAEA Additional Protocol permits the United States unilaterally to declare exclusions from inspection requirements for activities with direct national security significance.

The contract clause at DFARS 252.204-7010, as prescribed at DFARS 204.470-3, is included in contracts for research and development or major defense acquisition programs involving fissionable materials (e.g., uranium, plutonium, neptunium, thorium, americium); other radiological source materials; or technologies directly related to nuclear power production, including nuclear or radiological waste materials.

The clause requires a contractor to provide written notification to the applicable DoD program manager and a copy of the notification to the contracting officer if the contractor is required to report its activities under the U.S.-IAEA Additional Protocol. Upon

such notification, DoD will determine if access may be granted to IAEA inspectors, or if a national security exclusion should be applied.

DoD Clearance Officer: Mr. Tucker Lucas. Requests for copies of the information collection proposal should be sent to Mr. Lucas at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.
