SUPPLEMENTARY INFORMATION: IMLS is the primary source of federal support for

the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. To learn more, visit www.imls.gov.

Current Actions: This Notice proposes the clearance of a new information collection—the National Museum Survey (NMS). As noted in the 60-day notice, IMLS will be conducting a voluntary survey of museums that aims to capture the scope and scale of museums' presence and reach within the United States over time. This annual survey will collect statistically valid data on the U.S. museum sector, which does not currently exist. The data will describe the scope, scale and nature of museums' presence and reach within the U.S. NMS data will be useful to museum practitioners, policymakers at the federal, state, and local levels, the public, researchers, and journalists, and will be used for planning, research, evaluation, and policymaking.

The 60-day Notice was published in the **Federal Register** on April 30, 2024 [89 FR 34277 (Document Number 2024-09276)]. We received one comment under this Notice. That comment came from a representative of the American Library Association who wanted to ensure that museums located within libraries were included in, and eligible for, the NMS. The representative subsequently provided a list of such institutions for IMLS to cross-reference against the agency's list of museums to whom the NMS will be administered. Any such institutions that were not already included were added to IMLS' list.
