[Project No. 2071-090]

PacifiCorp; Notice of Intent To Prepare an Environmental Assessment

On May 31, 2023, PacifiCorp (licensee) filed an application for a non-capacity amendment for the Yale Hydroelectric Project No. 2071. The project is located on the Lewis River in Clark and Cowlitz counties, WA.

The licensee proposes to install a rock filter/drain berm on the downstream side of the Yale saddle dam and add a downstream toe drain and drainage swale. The licensee's proposal includes adding material to the downstream side of the dam, extending the toe approximately 50 feet into the parking lot for Saddle Dam Park that it would subsequently modify to maintain the existing parking capacity. Additionally, the applicant would add rock armament to the upstream face of the dam, requiring a 1 to 2-month-long, 15-foot reservoir drawdown in the winter. Construction is expected to take place over approximately 18 months.

On May 17, 2024, the Commission issued a public notice for the proposed amendment. On May 17, 2024, a member of the public filed comments and on June 17, 2024, the Washington Department of Ecology (Washington DOE) filed a notice of intervention. On June 17, 2024, the U.S. Environmental Protection Agency filed comments.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the project.¹ The planned schedule for the completion of the EA is May 28, 2025. Revisions to the schedule may be made as appropriate. The EA will be issued and made available for review by all

[Project No. 7153–018]

Consolidated Hydro New York, LLC; Notice of Intent To Prepare an Environmental Assessment

On April 29, 2022, Consolidated Hydro New York, LLC filed a relicense application for the 1.656-megawatt Victory Mills Hydroelectric Project (Victory Mills Project or project; FERC No. 7153). The project is located on Fish Creek in Saratoga County in the Village of Victory, New York.

In accordance with the Commission's regulations, on June 28, 2024, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to relicense the project.¹

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members, and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

The application will be processed according to the following schedule. The EA will be issued for a 30-day comment period. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA	September 24, 2025.
