

data until the items are implemented into the other FR Y–9 reports.

Proposed revisions:

The Board proposes to revise the FR Y–9C by (1) adding new line items to gather additional information regarding loans to nondepository financial institutions (NDFIs), (2) revising the instructions to include additional detail on the types of loans that should be reported as loans to NDFIs, (3) adding a new line item to capture the amount of structured financial products guaranteed by U.S. Government or sponsored agencies, (4) revising the instructions to permit HCs to use electronic signatures to comply with the FR Y–9C signature and attestation requirement, and (5) making other minor clarifications and conforming edits to the form and instructions. These revisions would also be consistent with proposed revisions² to the Federal Financial Institutions Examination Council (FFIEC) Consolidated Reports of Condition and Income (Call Reports) (FFIEC 031, FFIEC 041, and FFIEC 051; OMB No. 7100–0036).

The Board also proposes to revise the FR Y–9LP to instruct holding companies to report leases in accordance with Accounting Standards Update 2016–02, “Leases” (ASU 2016–02). There are no proposed revisions at this time for the FR Y–9SP, FR Y–9ES, or FR Y–9CS.

The Board also proposes to revise the Capital Assessments and Stress Testing Reports (FR Y–14A/Q/M; OMB No. 7100 0341) FR Y–14Q to align Schedule H.1, item 26, with the FR Y–9C proposed line items related to NDFIs. This change would have no effect on the hourly burden for the FR Y–14Q. There are no proposed revisions to the FR Y–14A/M as a part of this clearance. There is a separate notice for comment on the extension, with revision, of the FR Y–14A/Q/M, which published in the **Federal Register** on June 21, 2024 (89 FR 52042), and contains a full description of the FR Y–14A/Q/M information collection, including respondent burden estimates. The revisions proposed in that notice are unrelated to this revision. After considering any comments received related to all proposed revisions of the FR Y–14A/Q/M, the Board may finalize all FR Y–14A/Q/M revisions in a single **Federal Register** notice and supporting statement, separate from any **Federal Register** notice and supporting statement related to the FR Y–9.

All proposed changes mentioned above would take effect as of the December 31, 2024, report date.

comments received from the public and other agencies.

During the comment period for this proposal, a copy of the proposed PRA OMB submission, including the draft reporting form and instructions, supporting statement (which contains more detail about the information collection and burden estimates than this notice), and other documentation, will be made available on the Board's public website at <https://www.federalreserve.gov/apps/reportingforms/home/review> or may be requested from the agency clearance officer, whose name appears above. On the page displayed at the link above, you can find the supporting information by referencing the collection identifier, FR 3052. Final versions of these documents will be made available at <https://www.reginfo.gov/public/do/PRAMain>, if approved.

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

a. Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;

b. The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.

SUPPLEMENTARY INFORMATION:

Proposed Project

Medical Office Survey on Patient Safety Culture Database

In 1999, the Institute of Medicine called for health care organizations to develop a "culture of safety" such that their workforce and processes focus on improving the reliability and safety of care for patients (IOM, 1999; *To Err is Human: Building a Safer Health System*). To respond to the need for tools to assess patient safety culture in health care, AHRQ developed and pilot tested the Surveys on Patient Safety Culture® (SOPs®) Medical Office Survey with OMB approval (OMB NO. 0935-0131; Approved July 5, 2007).

The survey is designed to enable medical offices to assess provider and staff perspectives about patient safety issues, medical error, and error reporting. The survey includes 38 items that measure 10 composites of patient safety culture. In addition to the composite items, 14 items measure staff perceptions of how often medical offices have problems exchanging information with other settings as well as other patient safety and quality issues. AHRQ made the survey publicly available along with a Survey User's Guide and other toolkit materials in January 2009, on the AHRQ website.

The AHRQ SOPs Medical Office Database consists of data from the AHRQ Medical Office Survey on Patient Safety Culture and may include reportable, non-required supplemental items. Medical offices in the U.S. can voluntarily submit data from the survey to AHRQ, through its contractor, Westat. The SOPs Medical Office Database (OMB NO. 0935-0196, last approved on September 24, 2021) was developed by AHRQ in 2011 in response to requests
