Proposal Under OMB Delegated Authority To Extend for Three Years, Without Revision, the Following Information Collection

Collection title: Complex Institution Liquidity Monitoring Report.

Collection identifier: FR 2052a.

OMB control number: 7100–0361.

General description of collection: The FR 2052a collects quantitative information on select assets, liabilities, funding activities, and contingent liabilities of certain banking organizations. The Board uses this information to monitor the liquidity profile of these banking organizations.

The data collected by the FR 2052a provide detailed information about the liquidity risks within different business lines (e.g., financing of securities positions or prime brokerage activities) of certain large banking organizations supervised by the Board. The Board's supervisory surveillance program relies on this data, which provide timely information about banking organization-specific liquidity risks during periods of stress. The Board uses analyses of liquidity risk to inform its supervisory processes, including the preparation of analytical reports that detail funding vulnerabilities. FR 2052a data also contribute to the Board's supervisory monitoring efforts by identifying potential impediments to the movement of liquidity across legal entities. In addition, the FR 2052a provides detailed information that the Board uses to monitor compliance with the Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) rules under the Board's Regulation WW—Liquidity Risk Measurement, Standards, and Monitoring (12 CFR part 249)

Frequency: Daily, monthly.

Respondents: Banking organizations subject to Category I, II, III, or IV standards under the Board's Regulation YY and Regulation LL. The panel includes (1) any top-tier U.S. bank holding company with \$100 billion or more in total consolidated assets that is not a subsidiary of a foreign banking organization, (2) any top-tier U.S. savings and loan holding company with \$100 billion or more in total consolidated assets that is a covered depository institution holding company as defined by the LCR and NSFR rules and is not a subsidiary of a foreign banking organization, and (3) any foreign banking organization, as defined by the Board's Regulation YY, with combined U.S. assets of \$100 billion or more.

Total estimated number of respondents: Daily, 18; Monthly, 23.

Estimated average hours per response: Daily, 221; Monthly 121.

Total estimated annual burden hours: 1,027,896.

Request for Comment on the Burden Estimates: The Board is seeking comment specifically on the accuracy of the estimated hours per response for both daily filers (221 hours per day) and monthly filers (121 hours per month). Commenters are encouraged to provide details on how long it takes to comply with these requirements such as the number of staff involved, how much time staff spend, and how much, if any, of the reporting process is automated. General comments on whether the Board's estimates are reasonable, underestimated, or overestimated are also welcome.

Board of Governors of the Federal Reserve System, September 27, 2024.

Benjamin W. McDonough,

Deputy Secretary and Ombuds of the Board.
