Background

The Social Security Administration (SSA) is requesting clearance to collect data necessary to evaluate the Youth Transition Exploration Demonstration (YTED) under the Interventional Cooperative Agreement Program (ICAP). SSA awarded its second set of cooperative agreements for ICAP on December 22, 2022. ICAP allows SSA to partner with various non-federal groups and organizations to advance interventional research connected to the Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) programs. SSA awarded Mathematica a cooperative agreement to lead the YTED, which will help youth with disabilities transition successfully into the adult labor force and competitive, integrated employment. In addition, Mathematica is partnering with the Pennsylvania Office of Vocational Rehabilitation (OVR) to recruit youth and deliver intervention services and the University of Maryland's Center for Transition and Career Innovation (UMD) to provide training and technical assistance to OVR.

YTED Project Description

YTED will provide SSA with empirical evidence on the impact of the intervention on youth in several outcome areas: (1) employment and earnings; (2) SSI and SSDI benefit receipt; and (3) other related outcomes, such as satisfaction and well-being. A rigorous evaluation of YTED is important to help SSA and other interested parties assess promising options to improve employment-related outcomes and decrease benefit receipts. Mathematica is directing YTED and evaluating it via a randomized controlled trial. OVR will recruit 700 youth into YTED over a two-year period. Potential enrollees include all residents in the city of Philadelphia and the surrounding four counties in Pennsylvania (Bucks, Chester, Delaware, and Montgomery) ages 16 to 24 who qualify for vocational rehabilitation (VR) services; have never signed an individualized plan for employment with OVR; and are capable of giving informed consent or assent.
