Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for profit entities; not for profit institutions; State, local or Tribal government.

Number of Respondents/Responses: 8,445 respondents; 19,586 responses.

Estimated Hours per Response: 0.50 hours–3 hours.

Frequency of Response:

Recordkeeping requirement; One-time reporting requirement; Third party disclosure requirement.

Total Annual Burden: 27,711 hours.

Total Annual Cost: \$61,728,000.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in section 301 of the Communications Act of 1934, as amended.

Needs and Uses: The information collection requirements approved under this collection are as follows:

a. 47 CFR 74.787(a)(3) provides that mutually exclusive applicants applying for construction permits for new digital stations and for major changes to existing stations in the LPTV service will similarly be allowed to submit in writing to the Commission, settlements and engineering solutions to rectify the problem.

b. 47 CFR 74.787(a)(4) provides that mutually exclusive displacement relief applicants filing applications for digital LPTV and TV translator stations may be resolved by submitting settlements and engineering solutions in writing to the Commission.

c. 47 CFR 74.787(a)(5)(v) states that a license for a digital-to-digital replacement television translator will be issued only to a full-power television broadcast station licensee that demonstrates in its application a loss in the station's pre-auction digital service area as a result of the broadcast television spectrum incentive auction, including the repacking process, conducted under section 6403 of the Middle Class Tax Relief and Job Creation Act of 2012 (Pub. L. 112–96). “Pre-auction digital service area” is defined as the geographic area within the full power station's noise-limited

contour (as set forth in Public Notice, DA 15–1296, released November 12, 2015). The service area of the digital-to-digital replacement translator shall be limited to only the demonstrated loss area within the full power station's pre-auction digital service area, provided that an applicant for a digital-to-digital replacement television translator may propose a de minimis expansion of its full power pre-auction digital service area upon demonstrating that the expansion is necessary to replace a loss in its pre-auction digital service area.

d. 47 CFR 74.790(f) permits digital TV translator stations to originate emergency warnings over the air deemed necessary to protect and safeguard life and property, and to originate local public service announcements (PSAs) or messages seeking or acknowledging financial support necessary for its continued operation. These announcements or messages shall not exceed 30 seconds each, and be broadcast no more than once per hour.

e. 47 CFR 74.790(e) requires that a digital TV translator station shall not retransmit the programs and signal of any TV broadcast or DTV broadcast station(s) without prior written consent of such station(s). A digital TV translator operator electing to multiplex signals must negotiate arrangements and obtain written consent of involved DTV station licensee(s).

f. 47 CFR 74.790(g) requires a digital LPTV station who transmits the programming of a TV broadcast or DTV broadcast station received prior written consent of the station whose signal is being transmitted.

g. 47 CFR 74.794 mandates that digital LPTV and TV translator stations operating on TV channels 22–24, 32–36 and 38 with a digital transmitter not specifically FCC-certificated for the channel purchase and utilize a low pass filter or equivalent device rated by its manufacturer to have an attenuation of at least 85 dB in the GPS band. The licensees must retain with their station license a description of the low pass filter or equivalent device with the manufacturer's rating or a report of measurements by a qualified individual.

h. 47 CFR 74.796(b)(5) requires digital LPTV or TV translator station licensees that modify their existing transmitter by use of a manufacturer-provided modification kit would need to purchase the kit and must notify the Commission upon completion of the transmitter modifications. In addition, a digital LPTV or TV translator station licensees that modify their existing transmitter and do not use a manufacturer-provided modification kit,

but instead perform custom modification (those not related to installation of manufacturer-supplied and FCC-certified equipment) must notify the Commission upon completion of the transmitter modifications and shall certify compliance with all applicable transmission system requirements.

i. 47 CFR 74.796(b)(6) provides that operators who modify their existing transmitter by use of a manufacturer-provided modification kit must maintain with the station's records for a period of not less than two years, and will make available to the Commission upon request, a description of the nature of the modifications, installation and test instructions, and other material provided by the manufacturer, the results of performance-tests and measurements on the modified transmitter, and copies of related correspondence with the Commission. In addition, digital LPTV and TV translator operators who custom modify their transmitter must maintain with the station's records for a period of not less than two years, and will make available to the Commission upon request, a description of the modifications performed and performance tests, the results of performance-tests and measurements on the modified transmitter, and copies of related correspondence with the Commission.

SUPPLEMENTARY INFORMATION: On June 15, 1984, OMB delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve and assign OMB control numbers to collections of information conducted or sponsored by the Board. In exercising this delegated authority, the Board is directed to take every reasonable step to solicit comment. In determining whether to approve a collection of information, the Board will consider all comments received from the public and other agencies.

During the comment period for this proposal, a copy of the proposed PRA OMB submission, including the draft reporting form and instructions, supporting statement (which contains more detail about the information collection and burden estimates than this notice), and other documentation, will be made available on the Board's public website at <https://www.federalreserve.gov/apps/reportingforms/home/review> or may be requested from the agency clearance officer, whose name appears above. On the page displayed at the link above, you can find the supporting information by referencing the collection identifier, FR 2052a. Final versions of these documents will be made available at <https://www.reginfo.gov/public/do/PRAMain>, if approved.

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

a. Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;

b. The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.

Proposal Under OMB Delegated Authority To Extend for Three Years, Without Revision, the Following Information Collection

Collection title: Complex Institution Liquidity Monitoring Report.

Collection identifier: FR 2052a.

OMB control number: 7100–0361.

General description of collection: The FR 2052a collects quantitative information on select assets, liabilities, funding activities, and contingent liabilities of certain banking organizations. The Board uses this information to monitor the liquidity profile of these banking organizations.

The data collected by the FR 2052a provide detailed information about the liquidity risks within different business lines (e.g., financing of securities positions or prime brokerage activities) of certain large banking organizations supervised by the Board. The Board's supervisory surveillance program relies on this data, which provide timely information about banking organization-specific liquidity risks during periods of stress. The Board uses analyses of liquidity risk to inform its supervisory processes, including the preparation of analytical reports that detail funding vulnerabilities. FR 2052a data also contribute to the Board's supervisory monitoring efforts by identifying potential impediments to the movement of liquidity across legal entities. In addition, the FR 2052a provides detailed information that the Board uses to monitor compliance with the Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) rules under the Board's Regulation WW—Liquidity Risk Measurement, Standards, and Monitoring (12 CFR part 249)

Frequency: Daily, monthly.
