Abstract: The NPS Leasing Program allows any person or government entity to lease buildings and associated property administered by the Secretary of the Interior as part of the National Park System, under the authority of the Director of the NPS. A lease may not authorize an activity that could be authorized by a concessions contract or commercial use authorization. All leases must provide for the payment of fair market value rent. The Director may retain rental payments for park infrastructure needs and, in some cases, to provide administrative support of the leasing program.

The authority to collect information for the Leasing Program is derived from 54 U.S.C. 102101 *et seq.*, 54 U.S.C. 306121, and 36 CFR part 18. For competitive leasing opportunities, the regulations require the submission of proposals, or bids by parties interested in applying for a lease. The regulations also require that the Director approve lease amendments, construction or demolition of structures, and encumbrances on leasehold interests.

We collect information from anyone who wishes to submit a bid or proposal to lease a property. The Director may issue a request for bids if the amount of rent is the only criterion for award of a lease. The Director issues a request for proposals when the award of a lease is

based on selection criteria other than the rental rate. A request for proposals may be preceded by a request for qualifications to select a “short list” of potential offerors that meet the minimum management, financial, and other qualifications necessary for the submission of a proposal.

We use the information collected to evaluate offers, proposed subleases or assignments, proposed construction or demolition, the merits of proposed lease amendments, and proposed encumbrances. The completion times for each information collection requirement vary substantially depending on the complexity of the leasing opportunity.
