#### Information Collection Requirement

*OMB Control Number 1652-0002; Airport Security Part 1542.* The information collection is used to determine compliance with 49 CFR part 1542<sup>1</sup> and to ensure passenger safety and security by monitoring airport operator security procedures. The information collection and other recordkeeping requirements that currently fall under this OMB control number are associated with an airport operator's compliance with TSA's regulatory requirements, including the following: (1) development of an Airport Security Program (ASP), submission to TSA for review and approval, and implementation; (2) as applicable, development of airport operator requested or TSA-required ASP amendments and temporary changed conditions, submission to TSA for review and approval, and implementation; (3) collection of data necessary to complete a criminal history records check (CHRC) for those individuals with unescorted access to a Security Identification Display Area (SIDA); (4) submission to TSA of identifying information about individuals to whom the airport operator has issued identification media, such as name, address, and country of birth, in order for TSA to conduct a Security Threat Assessment (STA); and (5) information collection and recordkeeping requirements associated with compliance with the regulation, employees who have access privileges to secured areas of the airport, and compliance with Security Directives (SDs) issued pursuant to the regulation.

TSA will continue to collect information to determine airport operator compliance with other requirements of 49 CFR part 1542. TSA estimates that there will be approximately 435 airport operator respondents to the information collection requirements described above, with a total annual burden

<sup>1</sup> In July 2016, OMB approved TSA's request to revise OMB Control Number 1652-0002, by including in it the recordkeeping requirements under OMB Control Number 1652-0006, Employment Standards, which also applies to 49 CFR part 1542. This action combined two previously-approved ICRs into this single request to simplify TSA collections, increase transparency, and reduce duplication.

*OMB Approval Number:* 2506-0177.

*Type of Request:* Extension of currently approved collection.

*Description of the need for the information and proposed use:* HUD requests its applicants to supply environmental information that is not otherwise available to HUD staff for the environmental review on an applicant's proposal for HUD financial assistance to develop or improve housing or community facilities. Part 50 implements the National Environmental Policy Act and implementing procedures of the Council on Environmental Quality, as well as the related federal environmental laws and executive orders. HUD's agency-wide provisions—24 CFR 50.3(h)(1) and 50.32—regulate how individual HUD program staffs are to utilize such collected data when HUD itself prepares the environmental review and compliance. Separately, individual HUD programs each have their own regulations and guidance implementing environmental and related collection responsibilities. For the next three years, this approved collection will continue unchanged under this OMB control number to assure adequate coverage for all HUD programs subject to part 50.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered under the ESA.

**Background**

With some exceptions, the ESA prohibits activities that constitute take of listed species, unless a Federal permit is issued that allows such activity. The ESA's definition of "take" includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

**Permit Applications Available for Review and Comment**

We invite local, State, and Federal agencies; Tribes; and the public to comment on the applications in table 1.
