

*Type of Request:* Renewal with no change of a currently approved information collection.

*Abstract:* Section 60105 of 49 U.S.C. sets forth specific requirements a state must meet to qualify for certification status to assume regulatory and enforcement responsibility for intrastate pipelines, *i.e.*, state adoption of minimum federal safety standards, state inspection of pipeline operators to determine compliance with the standards, and state provision for enforcement sanctions substantially the same as those authorized by chapter 601, 49 U.S.C. A state must submit an annual certification to assume responsibility for regulating intrastate pipelines, and states who receive Federal grant funding must have adequate damage prevention plans and associated records in place. PHMSA uses this information to evaluate a state's eligibility for Federal grants and to enforce regulatory compliance. This information collection request requires a participating state to annually submit a Gas Pipeline Safety Program Certification and/or a Hazardous Liquid Pipeline Safety Program Certification to PHMSA's Office of Pipeline Safety (OPS) signifying compliance with the terms of the certification and to maintain records detailing a damage prevention plan for PHMSA inspectors whenever requested. The purpose of the collection is to exercise oversight of the grant program and to ensure that states are compliant with federal pipeline safety regulations.

*Affected Public:* Operators of pipeline facilities.

*Annual Reporting and Recordkeeping Burden:*

*Estimated number of responses:* 117.

*Estimated annual burden hours:*

4,473.

*Frequency of collection:* On occasion.

6. *Title:* Response Plans for Onshore Oil Pipelines.

*OMB Control Number:* 2137-0589.

*Current Expiration Date:* 09/30/2025.

*Type of Request:* Renewal with no change of a currently approved information collection.

*Abstract:* Title 49 CFR part 194 requires an operator of an onshore oil pipeline facility to prepare and submit an oil spill response plan to PHMSA for review and approval. This mandatory recordkeeping requirement details operators' plans to prepare for emergency situations involving oil spills. This mandatory information collection is used by PHMSA to determine if an operator is compliant with the requirements in part 194. Plans are submitted and/or updated annually. This information collection covers

operators' submission of facility response plans for onshore hazardous liquid pipeline facilities.

*Affected Public:* Operators of onshore oil pipeline facilities.

*Annual Reporting and Recordkeeping Burden:*

*Estimated number of responses:* 540.

*Estimated Annual Burden Hours:* 73,980.

*Frequency of Collection:* On occasion.

7. *Title:* Gas Transmission Integrity Management in High Consequence Areas.

*OMB Control Number:* 2137-0610.

*Current Expiration Date:* 09/30/2025.

*Type of Request:* Renewal with no change of a currently approved information collection.

*Abstract:* This mandatory information collection request pertains to gas transmission operators jurisdictional to 49 CFR part 192 subpart O Gas Transmission Integrity Management Program. The information collection requires gas transmission operators in high consequence areas to maintain a written integrity management program and keep records that demonstrate compliance with 49 CFR part 192 subpart O. Operators must maintain their integrity management records for the life of the pipeline, and PHMSA or State regulators may review it as a part of inspections. Gas transmission operators are also required to report to PHMSA certain actions related to their integrity management program. This information collection supports the DOT strategic goal of safety by reducing the number of incidents in natural gas transmission pipelines.

*Affected Public:* Operators of gas transmission pipeline systems.

*Annual Reporting and Recordkeeping Burden:*

*Estimated Number of Responses:* 733.

*Estimated Annual Burden Hours:* 1,018,807.

*Frequency of Collection:* On occasion.

8. *Title:* Control Room Management/ Human Factors.

*OMB Control Number:* 2137-0624.

*Current Expiration Date:* 09/30/2025.

*Type of Request:* Renewal with no change of a currently approved information collection.

*Abstract:* Operators of gas and hazardous liquid pipelines must develop, implement, and submit a human factors management plans designed to reduce risk associated with human factors in each control room. This mandatory record keeping requirement supports the U.S. Department of Transportation's "SAFETY STRATEGIC GOAL" which targets three main strategic initiatives: managing risk and integrity, sharing

responsibility, and providing effective stewardship. This goal enhances public health and safety by working toward the elimination of transportation-related deaths and injuries. The information is used by PHMSA to determine compliance with federal pipeline safety regulations and is also used by Agency and State Officials to assist federal and state pipeline safety inspectors who audit this information when they conduct compliance inspections and to provide background for failure investigations.

*Affected Public:* Operators of natural gas and hazardous liquid pipeline systems.

*Annual Reporting and Recordkeeping Burden:*

*Estimated Number of Responses:*

11,656.

*Estimated Annual Burden Hours:*

127,328.

*Frequency of Collection:* On occasion.
