

(Sub-Category), and Question 16. Please see the Narrative of Changes Table, a supplementary document, noting the revisions.

OIDO will use the additional form, "Privacy Waiver Authorizing Disclosure to a Third Party", to obtain the detained individual's authorization to disclose permitted information and/or records about that individual to a third party. Information collected on the "Privacy Waiver Authorizing Disclosure to a Third Party" will allow OIDO to disclose permitted information to a third party, such as the detained individual's relatives and/or representatives.

The use of DHS Form 405—"Case Intake Form" is the most efficient means for collecting and processing the required data. The form is available for download from the OIDO website. The PDF form can be completed online and submitted to OIDO by email or mail. Additionally, DHS Form 405—"Case Intake Form" can be submitted electronically via the myOIDO portal (<https://myoido.dhs.gov/en-US/>).

After approval of the "Privacy Waiver Authorizing Disclosure to a Third-Party" form, an electronic version will be developed so that submitters may complete and file it via the OIDO website. Additionally, the form will be available for download from the OIDO website. The PDF form will be able to be completed online, printed out, and submitted to OIDO by email or mail or handed in person at a detention facility.

This information collection does not have an impact on small businesses or other small entities. If this information is not collected, OIDO will not be able to accomplish its Congressional mandate to provide assistance to individuals who may be affected by misconduct, excessive force, or other violations of law or detention standards. DHS will conduct this collection in a manner consistent with the general information collection guidelines in 5 CFR 1320.5(d)(2). The assurance of confidentiality provided to the respondents for this information collection is based on the Privacy Impact Assessment for the Immigration Detention Ombudsman Case Management System (IDCMS) (June 21, 2021). Additionally, the information collected is covered by DHS/ALL-020 Department of Homeland Security Internal Affairs, April 28, 2014, 79 FR 23361 and DHS/ALL-025 Law Enforcement Authority in Support of the Protection of Property Owned, Occupied, or Secured by the Department of Homeland Security System of Records, June 14, 2017, 82 FR 27274.

This information collection was constructed in compliance with regulations and authorities under the purview of the DHS Privacy Office, DHS OCIO, DHS Records Management, and OMB regulations regarding data collection, use, sharing, storage, information security, and retrieval of information.

The addition of the "Privacy Waiver Authorizing Disclosure to a Third Party" form and the removal of several questions from OIDO "Case Intake Form" resulted in a change in the collection burden.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews for 59 Pacific Southwest Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act for 59 species. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any new information on these species that has become available since the last reviews.

DATES: To ensure consideration of your information in our reviews, we must receive your comments or information on or before December 16, 2024. However, we will continue to accept new information about any species at any time.

ADDRESSES: For instructions on how to submit information for a species, see table 1 in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: To request information on specific species, contact the appropriate person in the table in the **SUPPLEMENTARY INFORMATION** section or, for general information, contact Bjorn Erickson, via phone at (916) 414-6741, via email at peter_erickson@fws.gov, or via U.S. mail at U.S. Fish and Wildlife Service, 2800 Cottage Way, Suite W-2606, Sacramento, CA 95825. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), for 32 animal species and 27 plant species. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission

of any such information that has become available since the last review for the species, particularly information on the status, threats, and recovery of the species.

Why do we conduct a 5-year review?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in title 50 of the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for wildlife) and 50 CFR 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every 5 years. Our regulation at 50 CFR 424.21 requires that we publish a notice in the **Federal Register** announcing that a species is under active review. For additional information about 5-year

reviews, refer to our fact sheet at <https://www.fws.gov/project/five-year-status-reviews>.

What information do we consider in our review?

A 5-year status review considers all new information available at the time of the review. In conducting these reviews, we consider the best scientific and commercial data that have become available since the current listing determination or most recent status review of each species, such as:

- A. Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;
- B. Habitat conditions, including but not limited to amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA); and

E. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year status review and will also be useful in evaluating the ongoing recovery programs for the species.

Which species are under review?

This notice announces 5-year status reviews for the species listed in table 1.
