Annual Responses: 120.

Average Burden per Response: 15 minutes.

Annual Burden Hours: 30.

Total

Number of Respondents: 178.

Annual Responses: 178.

Annual Burden Hours: 74.

Needs and Uses: DoD Child Youth Programs (CYPs) require Anchored4Life (A4L) to provide Transition and Resiliency training to Navy (USN), Air Force (USAF), Space Force (USSF), Army (USA) and Marine Corps (USMC) School based elementary, middle, and high schools, installation CYPs, and Geo-dispersed locations. Service Branch CYPs are required by Title 10 U.S.C. 1785, “Youth Sponsorship Program” and DoD Instruction 6060.04, “Youth Services (YS) Policy,” to provide School Liaison program and Youth Sponsorship. Service Branches use CYP Education Services (CYES) to execute this requirement using School Liaisons (SL), School Based Programs (SBP) and Youth Programs (YP). Execution includes providing resiliency and transition training and support, as well as system navigation assistance to parents of military associated children. A4L is an essential element of the military CYPs, PreK–12 System Navigation, and youth sponsorship programs and shall be provided at military installations and be available to Geo-dispersed locations.

The USN, USAF, and USSF, through the Trevor Romain Contract HDQMWR–21–D–003, are requesting OMB approval for a qualitative study of the A4L program intended to support military-connected youth. Military-connected youth in kindergarten through 12th grade face challenges that are similar to their civilian counterparts and also face unique challenges specific to their association with the military (e.g., deployments, frequent moves; Karre & Perkins, 2022). There has been little research examining the implementation or effectiveness of programs and initiatives available to support military-connected youth (Karre & Perkins, 2022).

The purpose of this study is to investigate the implementation of A4L training to support military-connected youth (i.e., kindergarten through 12th grade) to review current research on K–12 military-connected youth and evaluate A4L programming to determine effectiveness of transition, deployment support, and resiliency impact on other key youth issues including bullying prevention, as well as recovery from grief and suicide. The long-term goal is to foster life skills and resiliency in military-connected youth while in school. Supporting youth is helpful to the military since about 45% of military-connected youth enter Military Service as adults. Having these life skills will assist youth in becoming productive young adults.

The evaluation questions to be addressed are as follows:

(1) How is A4L programming being implemented within schools and the Child and Youth Programs?

(2) Is the training and support increasing program quality through knowledge acquisition and standardization?

(3) Are the youth being supported by their peers when going through the transition topics supported by A4L?

(4) Are youth learning life skills, beginning in elementary school, that increase their resiliency to become productive young adults?

(5) Are the partnerships or other programs having the intended impact?

(6) Based on the analysis of the implementation data, what recommendations related evidence-informed practices within youth development need to be implemented or enhanced?

To answer these evaluative questions, semi-structured interviews will be conducted with A4L Stakeholders (Military Connected Individuals, Administrative points of contact, Advisers, and A4L Staff) and youth participating in A4L (Team Leaders,

Crew Members, and A4L representatives).

Affected Public: Individuals or households.

Frequency: Once.

Respondent’s Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet

Seehra.

DOD Clearance Officer: Mr. Reginald Lucas.

Dated: October 15, 2024.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 6001–FR–P

DEPARTMENT OF DEFENSE

Department of the Navy

[Docket ID: USN–2024–HQ–0012]

Proposed Collection; Comment Request

AGENCY: Headquarters Marine Corps (HQMC), Department of the Navy (DON), Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Marine Corps Installations Pacific (MCIPAC) announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by December 17, 2024.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, 4800 Mark Center Drive, Mailbox #24, Suite 05F16, Alexandria, VA 22350–1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Headquarters Marine Corps Records, Reports, Directives, and Forms Management Section, 3000 Marine Corps, Pentagon Rm. 2B253, Mr. Mark Kazzi, (571) 256-8883.

SUPPLEMENTARY INFORMATION:

Title: *Associated Form; and OMB Number:* Marine Corps Installations Pacific School Visit Program Application; MCIPAC-MCBB Form 5726/1; OMB Control Number 0712-SVPA.

Needs and Uses: Information collection via the MCIPAC-MCBB Form 5726/1, "School Visit Program Application" is necessary to allow local Japanese students to request to visit Marine Corps Bases in Okinawa. The information will be used as part of the school visit program to tailor the specific needs of students when visiting U.S. bases. The form is prepared by the MCIPAC-MCBB, G-7 School Visit Program Manager and filled out by the requesting school's staff facilitators.

Affected Public: Individuals or households.

Annual Burden Hours: 1.25.

Number of Respondents: 15.

Responses per Respondent: 1.

Annual Responses: 15.

Average Burden per Response: 5 minutes.

Frequency: On occasion.

Dated: October 15, 2024.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 6001-FR-P

DEPARTMENT OF ENERGY

[GDO Docket No. EA-479-A]

Application for Renewal of Authorization to Export Electric Energy; Macquarie Energy LLC

AGENCY: Grid Deployment Office, Department of Energy.

ACTION: Notice of application.

SUMMARY: Macquarie Energy LLC (Macquarie Energy or Applicant) has applied for renewed authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before November 18, 2024.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Janessa Zucchetto, (240) 474-8226, Electricity.Exports@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On April 10, 2023, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) under Redelegation Order No. S3-DEL-GD1-2023.

On November 21, 2019, DOE issued Order No. EA-479 to Macquarie Energy to transmit electric energy from the United States to Canada as a power marketer for a period of five years. On August 30, 2024, Macquarie Energy filed an application (Application or App.) for renewal of its export authority. App. at 1.

According to its Application, Macquarie Energy is a power marketer "and broker of electric power at wholesale." *Id.* at 1. The Applicant states that it is "a Delaware corporation with its office and principal place of business in Houston, Texas" and "an indirect, wholly-owned subsidiary of Macquarie Group Ltd., an Australian company listed on the Australian Stock Exchange." *Id.* Macquarie Energy states that "the Federal Energy Regulatory Commission [FERC] has authorized Macquarie Energy to engage in wholesale sales of electric energy, capacity, and ancillary services at market-based rates." *Id.*

Macquarie Energy represents that it "does not own or control any electric power generation or transmission facilities and does not have a franchised electric power service area." App. at 1. Macquarie Energy states it "does not have its own 'system' on which its exports of energy could have a reliability or stability impact" and it "will purchase the energy to be exported from wholesale generators, electric utilities, power marketers, Independent System Operators, Regional Transmission Authorities, and federal power marketing agencies." *Id.* at 2. The Applicant further states that "such energy is surplus to the system of the generator and thus, exportation of said energy will not impair the adequacy of the electric power supply within the United States." *Id.* Additionally, Macquarie Energy asserts that it will comply with all applicable reliability criteria, standards, and guidelines. *See id.* at 3.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. *See id.* at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at Electricity.Exports@hq.doe.gov. Protests should be filed in accordance with Rule 211 of FERC's Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at Electricity.Exports@hq.doe.gov in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning Macquarie Energy's Application should be clearly marked with GDO Docket No. EA-479-A. Additional copies are to be provided directly to Paul Tramonte, Macquarie Energy LLC, One Allen Center, 500 Dallas Street, Suite 3300, Houston, Texas 77002, paul.tramonte@macquarie.com; Michael A. Yuffee, Baker Botts LLP, 700 K Street NW, Washington, DC 20001, michael.yuffee@bakerbotts.com.

A final decision will be made on the requested authorization after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of
