**SUPPLEMENTARY INFORMATION:** Pursuant to the provisions of the Privacy Act of 1974, as amended, 5 U.S.C. 552a, the U.S. Department of Agriculture (USDA, the Department) Animal and Plant Health Inspection Service (APHIS) is rescinding the system of records notice, National Animal Health Laboratory Network (NAHLN), USDA/APHIS–5, and removing it from its inventory. This system was used to support activities conducted by the agency and maintain records pursuant to its missions and responsibilities authorized by the Animal Health Protection Act (7 U.S.C. 8301–8317); Public Health Security and Bioterrorism Preparedness and Response Act of 2002 (Pub. L. 107–188); Homeland Security Presidential Directive-7; and Homeland Security Presidential Directive-9.

The purpose of NAHLN was to coordinate and network USDA’s National Veterinary Services Laboratories with the capacity, facilities, professional expertise, and support of State and university laboratories. The network provides an extensive infrastructure of facilities, equipment, and personnel that is geographically accessible in the event of an animal health emergency.

The Department is rescinding this system of records because the records previously maintained in the system are now maintained within the system of records titled “Animal Health, Disease, and Pest Surveillance and Management System, USDA/APHIS–15,” which supports APHIS’ mission of protecting and improving the health, quality, and marketability of animals within the United States and response to animal health emergencies.

Rescinding the National Animal Health Laboratory Network notice will have no adverse impacts on individuals as the records are covered by and maintained under the Animal Health,

Disease, and Pest Surveillance and Management System, USDA/APHIS–15. This notice hereby rescinds the National Animal Health Laboratory Network (NAHLN) system of records notice as identified below.
