SUPPLEMENTARY INFORMATION: CPSC seeks to extend the following currently approved generic collection of information:

Title: Child Strength Study.

OMB Number: 3041-0187.

Type of Review: Extension of generic collection.

Frequency of Response: On occasion.

Affected Public: Child participants and their caregivers.

Estimated Number of Respondents:

We estimate 5,210 people will be invited for the study and 1,563 initial respondents will complete screening. Out of the initial respondents, 563 are expected to be screened out or not expected to ultimately participate after the invitation for study. We estimate that there will be 1,000 participants for the lab portion of the study.

Estimated Time per Response: The estimated time to complete a study session is 2 hours per participant. This does not account for the time for inviting and screening participants via phone conversations with the caregiver, which is additional 12 minutes per respondent.

Total Estimated Annual Burden:

Based on CPSC's estimates that 5,210 people will be invited for the study (3 minutes per invite), 1,563 initial respondents will complete screening (9 minutes per screening) and there will be 1,000 participants for the lab portion of the study (2 hours to complete each study session), CPSC estimates that the total burden of this collection is 2,267 hours. The average annual burden is approximately 756 hours; however, because of study timing and efficiency, a single year could have up to 1,850 burden hours. There are no costs to respondents and no respondent recordkeeping requirements associated with the study.

General Description of Collection: CPSC uses data on human strength and capabilities to develop product safety standards and to inform other CPSC staff activities. Strength capabilities of children are used to develop product performance requirements in standards to reduce or eliminate the risk such products might pose to a child (e.g., breaking, collapsing, or liberating a small part). The information to be collected from child participants ranging in age 3 months to 5 years includes contact and background information necessary to participate in a study to obtain child strength measures for upper and lower extremities and bite strength. Written consent is obtained from caregivers and verbal assent is obtained from children who are old enough to provide it. Researchers will obtain several standard anthropometric measurements from each child, including body weight and standing height. Researchers also record the participant's body shape using a whole-body laser scanner (VITUS XXL) and a Microsoft Kinect sensor.

Request for Comments:

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- whether the estimated burden of the proposed collection of information is accurate;
- whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

DEPARTMENT OF EDUCATION

[Docket No.: ED-2024-SCC-0130]

Agency Information Collection Activities; Comment Request; International Resource Information System (IRIS)

AGENCY: Office of Postsecondary Education (OPE), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing a revision of a currently approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before December 23, 2024.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED-2024-SCC-0130. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the www.regulations.gov site is not available to the public for any reason, the Department will temporarily accept comments at ICDocketMgr@ed.gov. Please include the docket ID number and the title of the information collection request when requesting documents or submitting comments. Please note that comments submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Manager of the Strategic Collections and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave, SW, LBJ, Room 4C210, Washington, DC 20202-1200.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Sara Starke, 202-987-0391.

SUPPLEMENTARY INFORMATION: The Department, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the

Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: International Resource Information System (IRIS).

OMB Control Number: 1840-0759.

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: Private Sector; Individuals and Households.

Total Estimated Number of Annual Responses: 6,126.

Total Estimated Number of Annual Burden Hours: 12,928.

Abstract: Information Resource Information System (IRIS) is an online performance reporting system for grantees of International and Foreign Language Education (IFLE) programs. The site also allows for IFLE program officers to process overseas language requests, travel authorization requests, and grant activation requests. IRIS keeps a record of these requests and also of Foreign Language and Area Studies (FLAS) Fellowship recipients and grantee performance reports.

The International and Foreign Language Education (IFLE) office within the Office of Postsecondary Education, of the U.S. Department of Education (the Department) administers 11 institutional and fellowship grant programs authorized under title VI of the Higher Education Act and section 102(b)(6) of the Mutual Educational and Cultural Exchange Act, also known as Fulbright-Hays (F-H). The purpose of these programs is to strengthen the capability and performance of American education in foreign languages and in area and international studies.

The International Resource Information System (IRIS) is an online database that is used for performance reporting by the grantees funded by these 11 programs. The purpose of IRIS is to provide a centralized and effective

way of collecting, reporting, and analyzing annual performance data.

This Information Collection Request is a revision of the previously approved IRIS information collection. The IFLE office underwent a strategic assessment of each program using the specific statute, regulations, and program purposes. Our assessment was guided by the following objectives: reduce the reporting burden for grantees; reduce the burden hours for IFLE staff to review APRs; and, increase the quality and usefulness of the data collected.

The strategic assessment resulted in revisions to the program collections that will significantly reduce reporting burden across programs. We anticipate that the overall annual burden hours will be reduced by 64% from the previous collection clearance.

Dated: October 21, 2024.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.
