

Dated: October 22, 2024

Darwin Arceo,

Department Clearance Officer for PRA, U.S. Department of Justice.

[FR Doc. 2024-24883 Filed 10-24-24; 8:45 am]

BILLING CODE 4410-09-P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Vehicle-Mounted Elevating and Rotating Work Platforms Standard (Aerial Lifts)

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Occupational Safety & Health Administration (OSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before November 25, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Nicole Bouchet by telephone at 202-693-0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The Standard requires that when aerial lifts are “field modified” for uses other than those intended by the manufacturer, the manufacturer or other equivalent entity, such as a nationally recognized testing laboratory, must certify in writing that the modification is in conformity with all applicable provisions of ANSI A92.2-1969 and the OSHA Standard and that the modified aerial lift is at least as safe as the equipment was before modification. Employers are to maintain the certification record and make it available to OSHA compliance officers. This record provides assurance to employers, workers, and compliance officers that the modified aerial lift is safe for use; thereby, preventing failure while workers are being elevated. The certification record also provides the

most efficient means for the compliance officers to determine that an employer is complying with the Standard. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 15, 2024 (89 FR 66456).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL-OSHA.

Title of Collection: Vehicle-Mounted Elevating and Rotating Work Platforms Standard (Aerial Lifts).

OMB Control Number: 1218-0230.

Affected Public: Private Sector—Businesses or other for-profits.

Total Estimated Number of Respondents: 1,000.

Total Estimated Number of Responses: 1,000.

Total Estimated Annual Time Burden: 17 hours.

Total Estimated Annual Other Costs Burden: \$0.

(Authority: 44 U.S.C. 3507(a)(1)(D))

Nicole Bouchet,

Senior Paperwork Reduction Act Analyst.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2009-0026]

Bureau Veritas Consumer Product Services Inc.: Grant of Expansion of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the final decision to expand the scope of recognition for Bureau Veritas Consumer Product Services Inc., for expansion of the recognition as a Nationally Recognized Testing Laboratory (NRTL).

DATES: The expansion of the scope of recognition becomes effective on October 25, 2024.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor; telephone (202) 693-1999 or email meilinger.francis2@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor; telephone (202) 693-1911 or email robinson.kevin@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of Bureau Veritas Consumer Product Services Inc. (BVCPS) as a NRTL. BVCPS’s expansion covers the addition of seven test standards to the NRTL scope of recognition.

OSHA’s recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL’s scope of recognition includes: (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL’s scope. Recognition is

not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides a final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including BVCPS which details the NRTL's scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

BVCPS submitted an application to OSHA for expansion of the NRTL scope of recognition on November 2, 2023 (OSHA-2009-0026-0089), requesting the addition of seven standards to the NRTL scope of recognition. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform an on-site review related to this application. OSHA staff has preliminarily determined that OSHA should grant the application for test standard expansion.

OSHA published the preliminary notice announcing BVCPS's expansion application in the **Federal Register** on September 12, 2024 (89 FR 74300). The agency requested comments by September 27, 2024, but it received no comments in response to this notice.

To obtain or review copies of all public documents pertaining to the BVCPS's application, go to <http://www.regulations.gov> or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department

of Labor. Docket No. OSHA-2009-0026 contains all materials in the record concerning BVCPS's recognition. Contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for assistance in locating docket submissions.

II. Final Decision and Order

OSHA staff examined BVCPS's expansion application, its capability to meet the requirements of the test standards, and other pertinent information. Based on its review of this evidence, OSHA finds that BVCPS meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitations and conditions listed in this notice. OSHA, therefore, is proceeding with this final notice to grant BVCPS's application for an expansion of the scope of recognition. OSHA limits the expansion of BVCPS's recognition to testing and certification of products for demonstration of conformance to the test standards listed below in Table 1.

TABLE 1—LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN BVCPS'S NRTL SCOPE OF RECOGNITION

| Test standard | Test standard title |
|----------------------|---|
| UL 61010-2-020 | Electrical Equipment for Measurement, Control, and Laboratory Use—Part 2-020: Particular Requirements for Laboratory Centrifuges. |
| UL 61010-2-051 | Electrical Equipment for Measurement, Control, and Laboratory Use—Part 2-051: Particular Requirements for Laboratory Equipment for Mixing and Stirring. |
| UL 61010-2-081 | Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use—Part 2-081: Particular Requirements for Automatic and Semi-Automatic Laboratory Equipment for Analysis and Other Purposes. |
| UL 61010-2-101 | Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use—Part 2-101: Particular Requirements for In Vitro Diagnostic (IVD) Medical Equipment. |
| UL 61010-2-201 | Safety Requirements for Electrical Equipment for Measurement, Control, and Laboratory Use—Part 2-201: Particular Requirements for Control Equipment. |
| UL 67 | Panelboards. |
| UL 869A | Reference Standard for Service Equipment. |

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, we may use the designation of the standards-developing organization for the standard as opposed to the ANSI designation. Under the NRTL Program's policy (see OSHA Instruction CPL 1-0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use

either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, BVCPS must abide by the following conditions of the recognition:

1. BVCPS must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);
2. BVCPS must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. BVCPS must continue to meet the requirements for recognition, including all previously published conditions on

BVCPS's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of BVCPS as a NRTL, subject to the limitations and conditions specified above.

III. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 8-2020 (85 FR 58393, Sept. 18, 2020), and 29 CFR 1910.7.

Signed at Washington, DC, on October 21, 2024.

James S. Frederick,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510–26–P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA–2011–0747]

Blasting and the Use of Explosives; Extension of the Office of Management and Budget’s (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comment.

SUMMARY: OSHA solicits public comments concerning the proposal to extend the Office of Management and Budget’s (OMB) approval of the information collection requirements specified in the Standard on Blasting and the use of Explosives.

DATES: Comments must be submitted (postmarked, sent, or received) by December 24, 2024.

ADDRESSES:

Electronically: You may submit comments, including attachments, electronically at <https://www.regulations.gov>, the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Docket: To read or download comments or other material in the docket, go to <https://www.regulations.gov>. Documents in the docket are listed in the <https://www.regulations.gov> index; however, some information (*e.g.*, copyrighted material) is not publicly available to read or download through the website. All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693–2350 (TTY (877) 889–5627) for assistance in locating docket submissions.

Instructions: All submissions must include the agency name and the OSHA docket number (OSHA–2011–0747) for the Information Collection Request (ICR). OSHA will place comments, including personal information, in the public docket, which may be available online. Therefore, OSHA cautions interested parties about submitting

personal information such as Social Security number or date of birth.

For further information on submitting comments, see the “Public Participation” heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

Seleda Perryman, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, telephone (202) 693–2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The Standard on Blasting and the Use of Explosives (29 CFR part 1926, subpart U) specifies a number of paperwork requirements. The following is a brief description of the collection of information requirements contained in the Subpart.

General Provisions (§ 1926.900)

§ 1926.900(d)—Paragraph (d) states that employers must ensure that explosives not in use are kept in a locked magazine, unavailable to persons not authorized to handle explosives. The employers must maintain an inventory and use record of all explosives—in use and not in use. In

addition, the employer must notify the appropriate authorities in the event of any loss, theft, or unauthorized entry into a magazine.

§ 1926.900(k)(3)(i)—Paragraph (k)(3)(i) requires employers to display adequate signs warning against the use of mobile radio transmitters on all roads within 1,000 feet of blasting operations to prevent the accidental discharge of electric blasting caps caused by current induced by radar, radio transmitters, lighting, adjacent power lines, dust storms, or other sources of extraneous electricity. The employer must certify and maintain a record of alternative provisions made to adequately prevent any premature firing of electric blasting caps.

§ 1926.900(o)—Employers must notify the operators and/or owners of overhead power lines, communication lines, utility lines, or other services and structures when blasting operations will take place in proximity to those lines, services, or structures.

§ 1926.903(d)—The employer must notify the hoist operator prior to transporting explosives or blasting agents in a shaft conveyance.

§ 1926.903(e)—Employers must perform weekly inspections on the electrical system of trucks used for underground transportation of explosives. The weekly inspection is to detect any failure in the system which would constitute an electrical hazard. The most recent certification of inspection must be maintained and must include the date of inspection, a serial number or other identifier of the truck inspected, and the signature of the person who performed the inspection.

§ 1926.905(t)—The employer blaster must maintain an accurate and up-to-date record of explosives, blasting agents, and blasting supplies used in a blast. The employer must also maintain an accurate running inventory of all explosives and blasting agents stored on the operation.

§ 1926.909(a)—Employers must post a code of blasting agents on one or more conspicuous places at the operation. All employees also shall familiarize themselves with the code and conform to it at all times. Danger signs warning of blasting agents shall also be placed at suitable locations.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency’s functions, including whether the information is useful;
