## Background

On October 4, 2024, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Tioga Pathway Project and Notice of Public Scoping Session* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; Federal, State, and local government agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. All substantive comments will be addressed in the EA.

## Additional Information

In order to receive notification of the issuance of the EA and to keep track of formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This

<sup>3</sup> This interconnect would be designed, installed, owned, operated, and maintained by Midstream, except for the interconnect's gas measurement, gas quality, over pressure protection devices and a pig launcher, which would be owned, operated, and maintained by National Fuel.

<sup>4</sup> A "pig" is a tool that the pipeline company inserts into and pushes through the pipeline, conducting internal inspections, or other purposes.

<sup>5</sup> National Fuel does not propose any changes to compressor units or to the certificated capacity at the Ellisburg Compressor Station.

service provides automatic notification of filings made to subscribed dockets, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.
