SUPPLEMENTARY INFORMATION:

Title: Plan for Estimating Daily Livestock Slaughter Under Federal Inspection.

OMB Number: 0581–0050.

Expiration Date of Approval: December 31, 2024.

Type of Request: Extension of a currently approved information collection.

Abstract: The Agricultural Marketing Act of 1946 (7 U.S.C. 1621–1627), section 203(g), directs and authorizes the U.S. Department of Agriculture (USDA) to collect and disseminate marketing information including adequate outlook information, on a market area basis, for the purpose of anticipating and meeting consumer requirements, aiding in the maintenance of farm income, and to bring about a balance between production and utilization.

Under this Market News program, AMS issues a Market News report estimating daily livestock slaughter under Federal inspection. This report is compiled by AMS on a voluntary basis in cooperation with the livestock and meat industry. Market News reporting must be timely, accurate, and continuous if it is to be useful to producers, processors, and the trade in general. The daily livestock slaughter estimates are provided at the request of industry and are used to make production and marketing decisions.

The Daily Estimated Livestock Slaughter Under Federal Inspection Report is used by a wide range of industry contacts, including packers, processors, producers, brokers, and retailers of meat and meat products. The livestock and meat industry requested that AMS issue slaughter estimates (daily and weekly), by species, for cattle, calves, hogs, and sheep in order to assist them in making immediate production and marketing decisions and as a guide to the volume of meat in the marketing channel. The information requested from respondents includes their estimation of the current day’s slaughter at their plant(s) and the actual slaughter for the previous day. Also, the Government is a large purchaser of meat and related products and this report assists other Government agencies in providing timely information on the quantity of meat entering the processing channels.

The aforementioned information must be collected, compiled, and disseminated by an impartial third-party, in a manner which protects the confidentiality of the reporting entity. USDA’s Agricultural Marketing Service is in the best position to provide this service.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .0333 hours per response.

Respondents: Business or other for-profit entities, individuals or households, farms, and the Federal Government.

Estimated Number of Respondents: 69.

Estimated Number of Responses: 17,940.

Estimated Number of Responses per Respondent: 260.

Estimated Total Annual Burden on Respondents: 597 hours.

Comments: Comments are invited on:

(1) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Melissa Bailey,

Associate Administrator, Agricultural Marketing Service.

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency’s estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to

minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments regarding this information collection received by November 25, 2024 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Agricultural Research Service

Title: Meeting the Information Requirements of the Animal Welfare Act Workshop Registration Form.

OMB Control Number: 0518–0033.

Summary of Collection: The U.S. Department of Agriculture, National Agricultural Library (NAL), Animal Welfare Information Center conducts a workshop titled “Meeting the Information Requirements of the Animal Welfare Act.” The registration form collects information from interested parties necessary to register them for the workshop. This information includes workshop data preferences, signature, name, title, organization name, mailing address, phone and fax numbers and email address. The information will be collected using online and printed versions of the form. Also, forms can be fax or mailed.

Need and Use of the Information: NAL will collect information to register participants, contact them regarding schedule changes, control the number of participants due to limited resources and training space, and compile and customize class materials to meet the needs of the participants. Failure to collect the information would prohibit the delivery of the workshop and significantly inhibit NAL’s ability to provide up-to-date information on the requirements of the Animal Welfare Act.

Description of Respondents: Individuals or Households; Not-for-

Profit Institutions; Business or Other for-profit; Government; State, Local, or Tribal Government.

Number of Respondents: 840.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 42.

Agency Information Collection Activities: Food Distribution Program on Indian Reservations Participant Characteristics and Program Operations Study

AGENCY: Food and Nutrition Service (FNS), United States Department of Agriculture (USDA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on this proposed information collection. This is a new information collection request in which FNS seeks updated information about the Food Distribution Program on Indian Reservations (FDPIR), including participant characteristics, program operations, and why FDPIR participation has been declining. This study will also include an evaluation of the self-determination demonstration projects (SDDPs), which allow Tribes administering FDPIR to directly purchase food for the FDPIR food packages distributed to their Tribe.
