

cybersecurity initiatives; (2) a status update on the NSTAC Principles for Baseline Security Offerings from Cloud Service Providers Study; and (3) a status update on the National Preparedness for Post-Quantum Cryptography Study.

The committee will also meet in a closed session from 1:00 to 2:45 p.m. EST during which time: (1) senior government intelligence officials will provide a threat briefing concerning threats to NS/EP communications; and (2) NSTAC members and government officials will discuss potential future NSTAC study topics.

Basis for Closure: In accordance with section 1009(d) of FACA; and sections 552b(c)(1) and 552b(c)(9)(B) of *The Government in the Sunshine Act* (Sunshine Act), 5 U.S.C. 552b; it has been determined that a portion of the agenda requires closure.

These agenda items are the: (1) classified threat briefing, which will provide NSTAC members the opportunity to discuss information concerning threats to NS/EP communications with senior government intelligence officials; and (2) potential future NSTAC study topic discussion. The threat briefing will be classified at the top secret/sensitive compartmented information level. Disclosure of these threats during the briefing, as well as vulnerabilities and mitigation techniques, is a risk to the Nation's cybersecurity posture because adversaries could use this information to compromise commercial and government networks. Subjects addressed during the discussion are tentative and are under further consideration by the committee.

Therefore, this portion of the meeting has been closed pursuant to section 1009(d) of FACA, and sections 552b(c)(1) and 552b(c)(9)(B) of the Sunshine Act, because it will disclose matters that are classified and be likely to significantly frustrate implementation of one or more proposed agency actions.

ACTION: 60-Day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR) Office of Management and Budget (OMB) control number 1652-0068, abstracted below, that we will submit to OMB for a revision in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection involves gathering information from individuals who plan to visit all TSA facilities in the National Capital Region (NCR).

DATES: Send your comments by December 24, 2024.

ADDRESSES: Comments may be emailed to TSAPRA@tsa.dhs.gov or delivered to the TSA PRA Officer, Information Technology (IT), TSA-11, Transportation Security Administration, 6595 Springfield Center Dr., Springfield, VA 20598-6011.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh at the above address, or by telephone (571) 227-2062.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652-0068; Security Appointment Center (SAC) Visitor Request Form and Foreign National Vetting Request. The Secretary of the Department of Homeland Security (DHS) is required to protect property owned, occupied, or secured by the Federal Government. *See* 40 U.S.C. 1315; *see also* 41 CFR 102-81.15 (requires Executive agencies to be responsible for maintaining security at their own or leased facilities). To implement this requirement, DHS policy requires all visitors to DHS facilities in the NCR¹ to have a criminal history records check through the National Crime Information Center system before accessing the facility.

TSA has established a visitor management process that meets DHS requirements. This process allows TSA to conduct business with visitors, including other Federal employees and contract employees, while managing risks posed by individuals entering the building who have not been subject to a full employee security background check. Once an individual's access is approved, TSA's Visitor Management System generates temporary badges that visitors must wear when entering TSA facilities in the NCR. This badge must be clearly visible for the duration of the individual's visit.

Visitors seeking to enter TSA facilities must also have a TSA-Federal employee as their host, and the host must complete the electronic TSA Form 2802, *Security Appointment Center (SAC) Visitor Request Form*. TSA Form 2802 requires that the Federal host employee provide the visitor's first and last name, date of birth, date and time of visit, visitor type (e.g., DHS or other government visitor, non-government individual), and whether the visitor is a foreign national visitor.² Although TSA requests the visitor to provide their social security number (SSN), the visitor is not required to provide this information. When provided, TSA uses the SSN to expedite vetting and to

¹ TSA facilities in the NCR include TSA Headquarters, the Freedom Center, the Transportation Security Integration Facility, and the Annapolis Junction facility.

² A person who is not a citizen of the United States.

enhance the accuracy in the identification of the visitor.

TSA uses the vetting results to determine the suitability of an individual requesting access to the TSA NCR, including whether the individual has a criminal history that would warrant further investigation and review before TSA grants access to the facility. In reviewing the National Crime Information Center vetting results, TSA will consider whether an individual could potentially pose a threat to the safety of TSA employees, contractors, visitors, or the facility. TSA also uses the information to maintain records of access to TSA facilities.

TSA previously used TSA Form 2816A, *Foreign National Visitor Request—Individual* to collect information for individual foreign national visitors and for groups consisting of two or more foreign nationals, TSA Form 2816B, *Foreign National Visitor Request—Group*.

TSA is revising the collection to remove TSA Form 2816A and transition TSA Form 2816B to a web form using SharePoint. This transition will help reduce user burden by incorporating system-populated fields and automatic submissions.

TSA estimates the average annual number of visitors to be 39,213, with an annual time burden to the public of 300 hours.

Dated: October 21, 2024.

TSA Paperwork Reduction Act Officer,
