Notice of this meeting is given under the Federal Advisory Committee Act (FACA), 5 U.S.C. Chapter 10. The NSTAC advises the President on matters related to national security and emergency preparedness (NS/EP) telecommunications and cybersecurity policy.

Agenda: The NSTAC will meet in an open session on Thursday, November 14, 2024, from 3 p.m. to 4:30 p.m. EST to discuss current NSTAC activities and the government's ongoing cybersecurity and NS/EP communications initiatives. This open session will include: (1) an update on the administration's

These agenda items are the: (1) classified threat briefing, which will provide NSTAC members the opportunity to discuss information concerning threats to NS/EP communications with senior government intelligence officials; and (2) potential future NSTAC study topic discussion. The threat briefing will be classified at the top secret/sensitive compartmented information level. Disclosure of these threats during the briefing, as well as vulnerabilities and mitigation techniques, is a risk to the Nation's cybersecurity posture because adversaries could use this information to compromise commercial and government networks. Subjects addressed during the discussion are tentative and are under further consideration by the committee.

Therefore, this portion of the meeting has been closed pursuant to section 1009(d) of FACA, and sections 552b(c)(1) and 552b(c)(9)(B) of the Sunshine Act, because it will disclose matters that are classified and be likely to significantly frustrate implementation of one or more proposed agency actions.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at https://www.reginfo.gov upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden:

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652–0068; Security Appointment Center (SAC) Visitor Request Form and Foreign National Vetting Request. The Secretary of the Department of Homeland Security (DHS) is required to protect property owned, occupied, or secured by the Federal Government. See 40 U.S.C. 1315; see also 41 CFR 102-81.15 (requires Executive agencies to be responsible for maintaining security at their own or leased facilities). To implement this requirement, DHS policy requires all visitors to DHS facilities in the NCR 1 to have a criminal history records check through the National Crime Information Center system before accessing the facility.

TSA has established a visitor management process that meets DHS requirements. This process allows TSA to conduct business with visitors, including other Federal employees and contract employees, while managing risks posed by individuals entering the building who have not been subject to a full employee security background check. Once an individual's access is approved, TSA's Visitor Management System generates temporary badges that visitors must wear when entering TSA facilities in the NCR. This badge must be clearly visible for the duration of the individual's visit.

Visitors seeking to enter TSA facilities must also have a TSA-Federal employee as their host, and the host must complete the electronic TSA Form 2802, Security Appointment Center (SAC) Visitor Request Form. TSA Form 2802 requires that the Federal host employee provide the visitor's first and last name, date of birth, date and time of visit, visitor type (e.g., DHS or other government visitor, non-government individual), and whether the visitor is a foreign national visitor.2 Although TSA requests the visitor to provide their social security number (SSN), the visitor is not required to provide this information. When provided, TSA uses the SSN to expedite vetting and to
