Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager identified in Table 1 of Unit I. In submitting a comment to EPA, please consider the following:

1. *Submitting CBI.* Do not submit this information to the EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to the EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

All comments should be submitted using the methods in **ADDRESSES** and must be received by the EPA on or before the closing date. These comments will become part of the docket for the pesticides included in Table 1 of Unit I. The Agency will consider all comments received by the closing date and may respond to comments in a "Response to Comments Memorandum"

in the docket or the Final Work Plan (FWP), as appropriate.

Public comments were previously requested via the **Federal Register** on May 8, 2024, during a 60-day comment period (89 FR 38895). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information the EPA will be collecting, are available in the public docket for this ICR. Abstract: This ICR renewal covers the information collection activities associated with the reporting and recordkeeping requirements for individuals, businesses, organizations, and government entities participating in or collaborating with EPA's Safer Choice and Design for the Environment (DfE) programs (referred to collectively as "the Safer Choice program" in this document unless otherwise indicated). This ICR also includes additional sections for the Safer Choice cleaning service certification and third-party profiler (TPP) solicitations. These components are designed to:

- Improve data efficiency by electronic data collection via a cloud-based Salesforce system called the Safer Choice Community;
- Monitor the public's awareness of the Safer Choice program and the Safer Choice label and DfE logo;
- Clarify the Safer Choice Partner of the Year Awards application process and form;

- Describe information collected through the new Safer Choice cleaning service certification program; and,
- Clarify the TPP application process and form.

Form numbers: 9600–017, 9600–018, 9600–019, 9600–020, 9600–021, 9600–022, 9600–023, 9600–058, 9600–059, 9600–060, 9600–061.

Respondents/affected entities: Entities potentially affected by this ICR include a wide range of sectors that participate in the Safer Choice Program including chemical manufacturers, paint and coating manufacturing, merchant wholesalers, janitorial services, and environmental consulting firms.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 4,539 (total).

Frequency of response: On occasion.
Total estimated burden: 4,511 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$854,358 (per year), which includes \$553,850 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase of 1,279 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase, which is discussed in more detail in the ICR, is due to an increase in annual consumer online surveys, which increased from 2,000 to 4,000 annually, the inclusion of a new program, the “Safer Choice Cleaning Service Certification,” and the inclusion of the TPP solicitation process. These changes qualify as a program change.

Director, Information Engagement Division.

Abstract: To meet the goals and objectives that demonstrate the U.S. Environmental Protection Agency (EPA’s) and the Administration’s commitment to achieving environmental justice and embedding environmental justice into Agency programs, the Environmental Justice

Thriving Communities Grantmaking Program provides about \$600 million in 11 cooperative agreements funding to “Grantmakers” who will function as pass-through entities for the Environmental Justice Thriving Communities Subgrants (2 CFR parts 200 and 1500). Each Grantmaker will collaborate with EPA to design and build their own processes to receive and evaluate applications to fund the initial development of community-led environmental justice projects. With this Information Collection Request (ICR), EPA seeks emergency clearance by October 31, 2024 for six Grantmakers to solicit applications for their first round of subgrants to be launched in November 2024.

This is the third of three related Grantmaker ICRs submitted on an emergency basis (see also 2090–0035 and 2090–0036). EPA cannot reasonably comply with the normal clearance procedures because subaward programs must be launched within 3 months, which does not allow sufficient time to obtain PRA clearance using the standard ICR process. Collection of the information requested under this emergency clearance (*i.e.*, applications) is essential for the Grantmakers to have a mechanism for selecting and distributing subaward grants to fund environmental justice projects in underserved communities, thus fulfilling the central objective of the program.

This emergency clearance will cover the first round of subaward applications solicited by six Grantmakers in November 2024. Subsequent rounds of applications will be authorized via a Standard ICR package for the Grantmaking Program that will be submitted for review via the standard ICR approval process.

Form Numbers: None.

Respondents/affected entities:

Respondents will include entities who are eligible to receive subawards, including community based nonprofit organizations, Puerto Rico, U.S. Territories and Freely Associated States, Native American organizations, local governments, and institutions of higher education.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 7,496 (total).

Frequency of response: Once.

Total estimated burden: 13,622 hours (total). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$897,264.38 (total), which includes \$178,057.92 annualized capital or operation & maintenance costs.
