POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office in the United States—F-16 IRST Systems

The Taipei Economic and Cultural Representative Office in the United States (TECRO) has requested to buy F-16 Infrared Search and Track (IRST) systems; integration and test support and equipment; aircraft and munitions support and support equipment; software delivery and support; spare parts, consumables and accessories, and repair and return support; publications and technical documentation; personnel training and training equipment; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistical and program support. There is no Major Defense Equipment (MDE). The estimated total cost is \$500 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's capability to meet current and future threats by contributing to the recipient's abilities to defend its airspace, provide regional security, and increase interoperability with the United States through its F-16 program. The recipient will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Lockheed Martin Corporation, St. Louis, MO. There are no known offset agreements proposed in connection with this potential sale. The purchaser typically requests offsets. Any offset agreement would be defined in negotiations between the purchaser and the contractor(s).

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 23-25

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Infrared Search and Track System (IRST) is a high resolution, passive, infrared sensor system that searches for, detects, and tracks threats with infrared signatures at long ranges within its field of regard. It functions without emitting any radiation of its own and enables aircrews to detect adversaries before those adversaries see or sense them.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the recipient can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the recipient.

SUPPLEMENTARY INFORMATION: The Department, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the

Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: National Evaluation of the Pathways to Partnerships Program (84.421E).

OMB Control Number: 1820-NEW.

Type of Review: New ICR.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 17,137.

Total Estimated Number of Annual Burden Hours: 4,760.

Abstract: The U.S. Department of Education's Rehabilitation Services Administration (RSA) requests clearance for new data collection activities to support the evaluation of the 84.421E Federal fiscal year (FFY) 2023 Disability Innovation Fund (DIF), Pathways to Partnerships Innovative Model Demonstration Project. The purpose of the DIF, as provided by the Consolidated Appropriations Act, 2022 (Pub. L. 117-103), is to support innovative activities aimed at increasing competitive integrated employment as defined in section 7 of the Rehabilitation Act of 1973 (Rehabilitation Act) (29 U.S.C. 705(5)) for children, youth, and other individuals with disabilities. The program aims to create systematic and seamless approaches to offering transition services to children with disabilities, ages 10-13 and youth with disabilities ages 14 to 24 through collaborations among State vocational rehabilitation (VR) agencies, State education agencies (SEAs), local education agencies (LEAs), Federally funded Centers for Independent Living (CILs), and other organizations offering services to this population. RSA is investing a total of \$198,975,322 in grant funding to the 20 States through the FFY 2023 DIF.

This request covers primary data collection activities for the National Evaluation of the Pathways to Partnerships Program. These activities include the following:

- Surveys and interviews with program participants or their parent or guardian
- Surveys with State VR, SEA, and CIL directors
- Surveys and interviews with project staff
- Collecting project administrative data (staff rosters, cost worksheets, and web analytics) from project directors

In September 2023, RSA awarded five-year cooperative agreements for the 84.421E FFY 2023 DIF model demonstration projects. The awards provide 20 State VR agencies or SEAs with funding to implement Pathways to Partnerships model demonstration projects. The Pathways to Partnerships models vary across the 20 projects, but the projects' purpose is to create and implement systematic approaches to delivering transition services to children and youth with disabilities. The approaches must entail establishing close partnerships across key agencies to deliver these services in ways likely to improve the education and employment outcomes of children and youth with disabilities.

Dated: October 23, 2024.

Juliana Pearson,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.
