BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Privacy Act of 1974; System of Records

AGENCY: U.S. Department of Energy.

ACTION: Notice of a modified system of records.

SUMMARY: As required by the Privacy Act of 1974 and the Office of Management and Budget (OMB) Circulars A-108 and A-130, the Department of Energy (DOE or the Department) is publishing notice of a modification to an existing Privacy Act system of records. DOE proposes to amend System of Records DOE-11 Emergency Operations Notification Call List. This System of Records Notice (SORN) is being modified to align with new formatting requirements, published by the Office of Management and Budget, and to ensure appropriate Privacy Act coverage of business processes and Privacy Act information. **DATES:** This modified SORN will become applicable following the end of the public comment period on December 2, 2024 unless comments are received that result in a contrary determination.

ADDRESSES: Written comments should be sent to the DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW, Washington, DC 20503, and to Ken Hunt, Chief Privacy Officer, U.S. Department of Energy, 1000 Independence Avenue SW, Rm 8H-085, Washington, DC 20585, by facsimile at (202) 586-8151, or by email at privacy@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Ken Hunt, Chief Privacy Officer, U.S. Department of Energy, 1000 Independence Avenue SW, Rm 8H-085, Washington, DC 20585, or by facsimile at (202) 586-8151, by email at privacy@hq.doe.gov, or by telephone at (240) 686-9485.

SUPPLEMENTARY INFORMATION: On January 9, 2009, DOE published a Compilation of its Privacy Act Systems

of Records, which included System of Records DOE-11 Emergency Operations Notification Call List. This notice proposes the following amendments. The National Nuclear Security Administration (NNSA) Headquarters and Naval Reactors Laboratory Field Office locations have been added as system locations. The following locations have been removed: Golden Field Office, Office of Naval Reactors, NNSA Nevada Site Office, Pittsburgh Naval Reactors, Schenectady Naval Reactors Office, and Office of Repository Development. The following addresses have been updated: John A. Gordon Albuquerque Complex, both Office of Science locations, Office of River Protection, Richland Operations Office, all National Energy Technology Laboratory locations, and Southwestern Power Administration. Language has been added to the "System Manager" section indicating the responsible parties at the Field offices. Minor revisions have been made to the "Purpose(s) of the System" and "Categories of Individuals Covered by the System" sections for clarity. Work location, title, and position have been added to "Categories of Records in the System." In the "Routine Uses" section, this modified notice deletes a previous routine use concerning efforts responding to a suspected or confirmed loss of confidentiality of information as it appears in DOE's compilation of its Privacy Act Systems of Records (January 9, 2009) and replaces it with one to assist DOE with responding to a suspected or confirmed breach of its records of Personally Identifiable Information (PII), modeled with language from OMB's Memorandum M-17-12, "Preparing for and Responding to a Breach of Personally Identifiable Information" (January 3, 2017). Further, this notice adds one new routine use to ensure that DOE may assist another agency or entity in responding to the other agency's or entity's confirmed or suspected breach of PII, as appropriate, as aligned with OMB's Memorandum M-17-12. The routine use formally number three is now number two. An administrative change required by the FOIA Improvement Act of 2016 extends the length of time a requestor is permitted to file an appeal under the Privacy Act from 30 to 90 days. Both the "System Locations" and "Administrative, Technical and Physical Safeguards" sections have been modified to reflect the Department's usage of cloud-based services for records storage. Language throughout the SORN has been updated to align

with applicable Federal privacy laws, policies, procedures, and best practices.
