Receipt of Application for Renewal of an Incidental Take Permit for the Sand Skink; Lake County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Sunterra Communities, LLC (applicant) for renewal of an incidental take permit (ITP) under the Endangered Species Act. If granted, the renewed ITP would authorize take of the federally listed as threatened sand skink (*Neoseps reynoldsi*) incidental to the construction of a residential and commercial development in Lake County, Florida. The applicant requests the renewal of the ITP to extend the expiration date for 5 additional years. There is no request for additional take or increases in development levels. The proposed renewal maintains the existing levels of take and renews the permit through June 14, 2029. We request public comment on the application, which includes the applicant’s original unchanged habitat conservation plan (HCP), and the Service’s determination that the proposed renewal remains eligible for a categorical exclusion pursuant to the Council on Environmental Quality’s National Environmental Policy Act (NEPA) regulations, the Department of the Interior’s (DOI) NEPA regulations, and the DOI Departmental Manual. To make this preliminary determination, we used our existing environmental action statement and low-effect screening form, both of which are also available for

public review. We invite comment from the public and local, State, Tribal, and Federal agencies.

DATES: We must receive your written comments on or before December 2, 2024.
