Energy Stream, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a subsequent license to continue to operate and maintain the M.S.C. Commission staff has prepared an Environmental Assessment (EA) for the project.

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that

would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link. PacifiCorp; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed PacifiCorp's proposal to amend the project's license for surrender of license for the Weber Hydroelectric Project No. 1744 and have prepared an Environmental Assessment (EA) for the proposed amendment. The licensee proposes to amend its license to construct three new auxiliary spillways north of Weber Dam, between the dam and the new fish ladder, and make additional repairs to modernize the intake facility to ensure safe and reliable operations through the term of its license. The project is located on the Weber River near the city of Ogden in Weber, Morgan, and Davis counties, Utah, and occupies Federal lands within the Uinta-Wasatch-Cache National Forest managed by the U.S. Department of Agriculture's Forest Service (Forest Service).

The EA contains Commission staff's analysis of the potential environmental effects of the proposed amendment and concludes that the proposed amendment, with appropriate environmental protective measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "elibrary" link. Enter the docket number (P–1744) in the docket number field to access the document.
