

designated, the name of the service area, population group, or facility involved is listed under the county name. A county that has a whole county geographic or population group HPSA is indicated by the phrase "County" following the county name.

Development of the Designation and Withdrawal Lists

HRSA continuously receives requests for designation or withdrawal of a particular geographic area, population group, or facility as a HPSA. Under a Cooperative Agreement between HRSA and the 54 state and territorial primary care offices (PCOs), PCOs conduct needs assessments and submit applications to HRSA to designate HPSAs. HRSA refers requests that come from other sources to PCOs for review. In addition, interested parties, including governors, state primary care associations, and state professional associations, are notified of requests so that they may submit their comments and recommendations.

HRSA reviews each recommendation for possible addition, continuation, revision, or withdrawal. Following review, HRSA notifies the appropriate agency, individuals, and interested organizations of each designation of a HPSA, rejection of recommendation for HPSA designation, revision of a HPSA designation, and/or advance notice of pending withdrawals from the HPSA list. Designations (or revisions of designations) are effective as of the date on the notification from HRSA and are updated daily on the HRSA Data Warehouse website. The effective date of a withdrawal will be the next publication of a notice regarding the list of designated HPSAs in the **Federal Register**.

Diana Espinosa,

Principal Deputy Administrator.
