Abstract: Grants to Improve the Criminal Justice Response (ICJR Program) is designed to encourage partnerships among State, local, and Tribal governments, courts, victim service providers, coalitions, and rape crisis centers to improve the criminal justice response to domestic violence, sexual assault, dating violence, and stalking as serious violations of criminal law, and to seek safety and autonomy for victims.

The ICJR Program challenges communities to work collaboratively to identify problems and share ideas that will result in effective responses to ensure victim safety and offender accountability. A coordinated community response that brings together effective partners from the local government including law enforcement agencies, prosecutors' offices and courts, nonprofit organizations, and population specific organizations is critical to the ICJR Program.

Eligible applicants are States and territories, units of local government, Indian Tribal governments, State, local, Tribal, and territorial courts, victim service providers, State and Tribal coalitions, and government rape crisis centers. This program is authorized by 34 U.S.C. 10461-10465.

SUPPLEMENTARY INFORMATION:

I. Notice of the Applications for Expansion

The Occupational Safety and Health Administration is providing notice that SGS North America, Inc. (SGS) is applying for an expansion of the current recognition as a NRTL. SGS requests the addition of six test sites and one test standard to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL’s scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL’s scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL’s scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including SGS, which details the NRTL’s scope of recognition. These pages are available from the OSHA website at <https://www.osha.gov/dts/otpca/nrtl/index.html>.

SGS currently has nine facilities (sites) recognized by OSHA for product testing and certification, with the headquarters located at: SGS North America, Inc., 620 Old Peachtree Road,
