Abstract: Reclamation is responsible
for approximately 6.5 million acres of
land which directly support
Reclamation's Federal water projects in
the 17 Western States. Under 43 CFR
part 429, individuals or entities wanting
to use Reclamation's lands, facilities, or
waterbodies must apply using Form 7-
2540. Examples of such uses are:

- agricultural uses such as grazing and
farming;
- commercial or organized recreation
and sporting activities;
- other commercial activities such as
“guiding and outfitting” and “filming
and photography;” and,
- resource exploration and extraction,
including sand and gravel removal
and timber harvesting.

We review applications to determine
whether granting individual use
authorizations are compatible with
Reclamation's present or future uses of
the lands, facilities, or waterbodies.
When we find a proposed use
compatible, we advise the applicant of

the estimated administrative costs and
estimated application processing time.
In addition to the administrative costs,
we require the applicant to pay a use fee
based on a valuation or by competitive
bidding. If the application is for
construction of a bridge, building, or
other significant construction project,
Reclamation may require that all plans
and specifications be signed and sealed
by a licensed professional engineer.
