

adopting proposals to streamline the rules relating to interference caused by FM translators and to expedite the translator interference complaint resolution process. These measures were designed to limit or avoid protracted and contentious interference disputes, provide translator licensees additional investment certainty and flexibility to remediate interference, and provide affected stations expedited resolution of interference complaints. When the FM Translator Interference Report and Order was adopted, the following information collection requirements required OMB approval.

Specifically, the FM Translator Interference Report and Order, as it pertains to this Information Collection, codified the translator interference listener complaint requirements under rule § 74.1201(k) and §§ 74.1203(a)(3) (actual interference) and 74.1204(f) (predicted interference). The Commission set forth the requirements for a listener complaint submitted with a translator interference claim in § 74.1201(k), as a complaint that is signed and dated by the listener, and contains the following information: (1) the complainant's full name, address, and phone number; (2) a clear, concise, and accurate description of the location where the interference is alleged or predicted to occur; (3) a statement that the complainant listens to the desired station using an over-the-air signal at least twice a month, to demonstrate the complainant is a regular listener; and (4) a statement that the complainant has no legal, employment, financial, or familial affiliation or relationship with the desired station, to demonstrate the complainant is disinterested. Electronic signatures are acceptable for this purpose.

The FM Translator Interference Report and Order established a minimum number of listener complaints, ranging from 6 to 25, depending on the population served within the protected contour of the complaining station. In addition to the required minimum number of valid listener complaints, a station submitting a translator interference claim package pursuant to either § 74.1203(a)(3) or 74.1204(f) must include: (1) a map plotting the specific locations of the alleged interference in relation to the 45 dBu contour of the complaining station; (2) a statement that the complaining station is operating within its licensed parameters; (3) a statement that the complaining station licensee has used commercially reasonable efforts to inform the relevant translator licensee of the claimed interference and attempted private resolution; and (4) U/D data

demonstrating that at each listener location the ratio of undesired to desired signal strength exceeds -20 dB for co-channel situations, -6 dB for first-adjacent channel situations or 40 dB for second- or third-adjacent channel situations, calculated using the Commission's standard contour prediction methodology set out in § 73.313.

In the FM Translator Interference Report and Order, the Commission outlined two paths for resolving interference. First, a translator operator may resolve each listener complaint by working with the listener to resolve reception issues. The translator operator must then document and certify that the desired station can now be heard on the listener's receiver, *i.e.*, that the adjustment to or replacement of the listener's receiving equipment actually resolved the interference. Second, the translator operator may work with the complaining station to resolve station signal interference issues using rule-compliant suitable technical techniques. Once agreement is reached, the translator operator submits the agreed-upon remediation showing to the Commission.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1302; FR ID 259002]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the

quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before January 7, 2025. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

OMB Control Number: 3060-1302.
Title: Wireless Emergency Alerts (WEA) False Alert Reporting.

Form No.: N/A.

Type of Review: Revision of a currently approved information collection.

Respondents: State, Local, Territorial, Tribal, or Federal Government.
Number of Respondents and Responses: 23,201 respondents; 15 responses.

Estimated Time per Response: 1 hour.
Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Voluntary.
Statutory authority for this information collection is contained in 47 U.S.C. 151, 152, 154(i), 154(o), 301, 303(r), 303(v), 307, 309, 335, 403, 544(g), 606, 613, 1201, 1202, 1203, 1204 and 1206. **Total Annual Burden:** 15 hours.

Total Annual Cost: No cost.

Needs and Uses: This is a request for a revision of a currently approved information collection related to two regulations under the Commission's part 10 Wireless Emergency Alert (WEA) rules. No other information collections contained in the Commission's regulations will be impacted by the rules described herein.

The WEA system is a mechanism under which Commercial Mobile

Service (CMS) providers may elect to transmit emergency alerts to the public. The Commission created WEA (previously known as the Commercial Mobile Service Alert System) as required by Congress in the Warning Alert and Response Network (WARN) Act and to satisfy the Commission’s mandate to promote the safety of life and property through the use of wire and radio communication.

On January 1, 2021, Congress passed the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (NDAA21). Section 9201 of the NDAA21 required the Commission to complete a rulemaking and adopt rules within 180 days to make certain changes to its WEA regulations, and also to its separate Emergency Alert System (EAS) regulations governing broadcast, cable television, and direct satellite media emergency alerts.

With respect to the WEA rule changes, Section 9201 directed the Commission to ensure that the mobile devices of CMS providers that have elected to participate in WEA cannot opt out of receiving WEA alerts from the Federal Emergency Management Agency (FEMA) Administrator, and to enable reporting by the FEMA Administrator and State, Tribal, or Local governments of false WEA alerts. On June 21, 2021, the Commission released its Report and Order in PS Dockets 15–91 and 15–94 (NDAA21 Alerting Order), FCC 21–77, adopting the WEA and EAS changes directed by Congress in the NDAA21. The EAS changes are the subject of a different notice to be published separately.

The NDAA21 Alerting Order implemented Congresses’ new directives for WEA, in part, with two new regulations that impose new burdens on respondents: the handset display update, and false alert reporting. The handset display update requirement has since been fulfilled by respondents

and the burdens will be removed from this collection pursuant to the revisions in this information collection. With respect to false alert reporting, the Commission adopted a rule permitting the FEMA Administrator or a State, Local, Tribal, or Territorial government to voluntarily report WEA false alerts to the FCC Operations Center at *FCCOPS@fcc.gov*, informing the Commission of the event and any relevant details. This rule created a voluntary mechanism for collection of information so that the Commission can monitor these false alert events which can undermine public confidence in the reliability of emergency alerting and WEA. Email reporting was adopted as a minimally-burdensome way for government entities to report false alerts. The WEA false alert reporting regulation is codified at 47 CFR 10.520(d)(2).

BILLING CODE 6712–01–P

FEDERAL DEPOSIT INSURANCE CORPORATION

[OMB No. 3064–NEW]

Agency Information Collection Activities: Proposed Collection Renewal; Comment Request

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice and request for comment.

SUMMARY: The FDIC, as part of its obligations under the Paperwork Reduction Act of 1995, invites the general public and other Federal agencies to take this opportunity to comment on the request to obtain OMB approval of the new information collection described below. The initial notice for the creation of this new information collection was previously

published in the **Federal Register** on March 5, 2024, allowing for a 60-day comment period.

DATES: Comments must be submitted on or before December 9, 2024.

ADDRESSES: Interested parties are invited to submit written comments to the FDIC by any of the following methods:

- *Agency website:* <https://www.fdic.gov/resources/regulations/federal-register-publications/>.
- *Email:* comments@fdic.gov. Include the name and number of the collection in the subject line of the message.
- *Mail:* Manny Cabeza (202–898–3767), Regulatory Counsel, MB–3128, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.
- *Hand Delivery:* Comments may be hand-delivered to the guard station at the rear of the 17th Street NW building (located on F Street NW), on business days between 7 a.m. and 5 p.m.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Manny Cabeza, Regulatory Counsel, 202–898–3767, mcabeza@fdic.gov, MB–3128, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.

SUPPLEMENTARY INFORMATION: The FDIC is requesting OMB approval for the following new collection of information:

- Title:* Visitor Notification form.
- OMB Number:* 3064–NEW.
- Frequency of Response:* On occasion.
- Affected Public:* Individuals intending to enter FDIC facilities.
- Estimated Annual Burden:*

TABLE 1—SUMMARY OF ESTIMATED ANNUAL BURDEN

[OMB No. 3064–NEW]

Information Collection (IC) (obligation to respond)	Type of burden (frequency of response)	Number of respondents	Number of responses per respondent	Time per response (HH:MM)	Annual burden (hours)
Visitor Notification form, (Mandatory)	Recordkeeping (Annual)	598	1.087	00:15	163
Total Annual Burden (Hours)	163

Source: FDIC.

Note: The estimated annual IC time burden is the product, rounded to the nearest hour, of the estimated annual number of responses and the estimated time per response for a given IC. The estimated annual number of responses is the product, rounded to the nearest whole number, of the estimated annual number of respondents and the estimated annual number of responses per respondent. This methodology ensures the estimated annual burdens in the table are consistent with the values recorded in OMB’s consolidated information system.
