Abstract of Information Available

Based on the information available, human remains representing, at least, seven individuals removed from the Bennett Mound or Bennett Site (CA-SAC-16), Sacramento County, CA, have been identified. The seven lots of associated funerary objects are projectile points. On an unknown date prior to 1928, Albert Heath, a collector and dealer from Chicago, Illinois, obtained the individuals and associated funerary objects. They were purchased by RMSC from Albert Heath in March 1928. RMSC has no knowledge of any potentially hazardous substances used to treat the human remains or the associated funerary objects.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the human remains and associated funerary objects described in this notice.

Determinations

The RMSC has determined that:

- The human remains described in this notice represent the physical remains of seven individuals of Native American ancestry.
- The seven objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a reasonable connection between the human remains and associated funerary objects described in this notice and the Buena Vista Rancheria of Me-Wuk Indians of

California; California Valley Miwok Tribe, California; Chicken Ranch Rancheria of Me-Wuk Indians of California; Ione Band of Miwok Indians of California; Jackson Band of Miwok Indians; Shingle Springs Band of Miwok Indians, Shingle Springs Rancheria (Verona Tract), California; Tuolumne Band of Me-Wuk Indians of the Tuolumne Rancheria of California; United Auburn Indian Community of the Auburn Rancheria of California; and the Wilton Rancheria, California.

If competing requests for repatriation are received, the RMSC must determine the most appropriate requestor prior to repatriation.
