General Information: The Draft General Permit includes effluent limitations and requirements for eligible facilities based on technology and/or water quality considerations of the unique discharges from these facilities. The effluent limits established in the Draft General Permit ensure that the surface water quality standards of the receiving water(s) will be attained and/or maintained.

Obtaining Authorization: To obtain coverage under the General Permit, facilities meeting the eligibility requirements outlined in part I of this General Permit may submit a notice of intent (NOI) in accordance with part III of this General Permit and 40 CFR 122.28(b)(2)(i) and (ii). The contents of the NOI shall include at a minimum, the legal name and address of the owner or operator, the facility name and address, type of facility or discharges, the receiving stream(s) and be signed by the operator in accordance with the signatory requirements of 40 CFR 122.22. Alternately, based on 40 CFR 122.28(b)(2)(vi), the Director may notify a discharger that it is covered by a general permit, even if the discharger has not submitted an NOI to be covered. EPA has determined that the facilities identified in Attachment E of the Draft General Permit all meet the eligibility requirements for coverage under the Draft General Permit and may be authorized to discharge under the General Permit by this type of notification.

Other Legal Requirements:
Endangered Species Act (ESA): In accordance with the ESA, EPA has updated the provisions and necessary actions and documentation related to potential impacts to endangered species from WWTFs seeking coverage under the Draft General Permit. Concurrently with the public notice of the Draft General Permit, EPA will initiate an informal consultation with the National Oceanic and Atmospheric Administration, National Marine Fisheries Service (NOAA Fisheries) under ESA section 7, through the submission of a letter and biological assessment (BA) summarizing the results of EPA's assessment of the potential effects to endangered and threatened species and their critical habitats under NOAA Fisheries jurisdiction as a result of EPA's issuance of the Draft General Permit. In this document, EPA has made a preliminary determination that the proposed issuance of the Draft General Permit may affect, but is not likely to adversely affect the shortnose sturgeon, Atlantic

sturgeon, or designated Atlantic sturgeon critical habitat (Gulf of Maine Unit 4: Piscataqua River), as well as coastal protected sea turtles, whales, or designated North Atlantic right whale critical habitat (Northeastern U.S. Foraging Area Unit 1). EPA will request that NOAA Fisheries review this submittal and inform EPA whether it concurs with this preliminary finding.

EPA will also assess ESA threatened or endangered shore birds and terrestrial species under the jurisdiction of USFWS and a preliminary determination will be submitted to USFWS concurrently with the public notice of the Draft General Permit where appropriate. EPA has concluded that the NH Medium WWTF GP is consistent with activities analyzed in the USFWS Service's Information for Planning and Consultation (IPaC) standing analysis and Range-wide Northern Long-eared Bat Determination Key for the endangered northern long-eared bat. EPA made a similar determination regarding the proposed endangered tricolored bat.

Essential Fish Habitat (EFH): Under the 1996 Amendments (Pub. L. 104–267) to the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.* (1998)), EPA is required to consult with NOAA Fisheries if EPA's actions or proposed actions that it funds, permits or undertakes "may adversely impact any essential fish habitat." 16 U.S.C. 1855(b). EPA has determined that the permit action may adversely affect the EFH of designated species. The Draft General Permit has been conditioned to minimize any impacts that reduce the quality and/or quantity of EFH. Additional mitigation is not warranted under section 305(b)(2) of the Magnuson-Stevens Act. Concurrent with the public notice of the Draft General Permit, EPA will initiate consultation with NOAA Fisheries by providing this determination for their review.

National Historic Preservation Act (NHPA): Facilities which adversely affect properties listed or eligible for listing in the National Registry of Historic Places under the NHPA are not authorized to discharge under the Draft General Permit. Based on the nature and location of the discharges, EPA has determined that all facilities eligible for authorization under the Draft General Permit do not have the potential to affect a property that is either listed or eligible for listing on the National Register of Historic Places.

Coastal Zone Management Act (CZMA): The CZMA, 16 U.S.C. 1451 *et seq.*, and its implementing regulations (15 CFR part 930) require a

determination that any federally licensed activity affecting the coastal zone with an approved Coastal Zone Management Program (CZMP) is consistent with the CZMA. Concurrent with the public notice of the Draft General Permit, EPA will request that the New Hampshire Coastal Program, NHCP, provide a consistency concurrence that the proposed Draft General Permit is consistent with the NH CZMPs.

Authority: This action is being taken under the Clean Water Act, 33 U.S.C. 1251 *et seq.*

FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 260101]

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Notice of a modified system of records.

SUMMARY: The Federal Communications Commission (FCC or Commission or Agency) has modified an existing system of records, FCC/OGC-5, Pending Civil Cases, subject to the Privacy Act of 1974, as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the agency. The Office of the General Counsel (OGC) uses this system to update or furnish additional data, which may include personally identifiable information, for the Department of Justice (DOJ), in those instances in

which DOJ is handling a pending civil case involving or on behalf of the FCC.

DATES: This modified system of records will become effective on November 13, 2024. Written comments on the routine uses are due by December 13, 2024. The routine uses in this action will become effective on December 13, 2024 unless comments are received that require a contrary determination.

ADDRESSES: Send comments to Brendan McTaggart, Federal Communications Commission, 45 L Street NE, Washington, DC 20554, or privacy@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Brendan McTaggart, (202) 418-1738, or privacy@fcc.gov.

SUPPLEMENTARY INFORMATION: This notice serves to update and modify FCC/OGC-5 as a result of various necessary changes and updates. The substantive changes and modifications to the previously published version of the FCC/OGC-5 system of records include updating and/or revising language in eight routine uses (listed by the routine use number provided in this notice): (1) Litigation and (2) Adjudication, which were formerly a single routine use; (3) Law Enforcement and Investigation; (4) Congressional Inquiries; (5) Government-wide Program Management and Oversight; (6) Breach Notification, the modification of which is required by OMB M-17-12; (7) Assistance to Federal Agencies and Entities Related to Breaches, the addition of which is required by OMB M-17-12; and (8) Nonfederal Personnel.

The system of records is also updated to reflect various administrative changes related to the system managers and system addresses; policy and practices for storage, retention, disposal and retrieval of the information; administrative, technical, and physical safeguards; and updated notification, records access, and contesting records procedures.

SYSTEM NAME AND NUMBER:

FCC/OGC-5, Pending Civil Cases.

SECURITY CLASSIFICATION:
