

dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Ms. Callahan or Mr. Endicott. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The Approved Northwest California Integrated RMP replaces the 1992 Arcata RMP and 1993 Redding RMP. The Northwest California planning area covers approximately 382,200 acres of public land and approximately an additional 295,100 subsurface acres of Federal mineral estate in Mendocino, Humboldt, Del Norte, Siskiyou, Trinity, Shasta, Tehama, and Butte counties. Separate management plans guide BLM management for National Monuments, National Conservation Areas, and similar designations within the planning area.

Other non-BLM-administered lands within the planning area include the Six Rivers, Shasta-Trinity, Klamath, Lassen, Plumas, and Mendocino National Forests; Lassen Volcanic and Redwoods National Parks; the Whiskeytown and Smith River National Recreation Areas; the Sacramento Castle Rock and Humboldt Bay National Wildlife Refuges; and Black Butte Lake (managed by the U.S. Army Corps of Engineers).

Tribal lands and reservations for 31 federally recognized Native American Tribes fall within the planning area and the BLM-administered lands include ancestral territories, sacred sites, gathering areas, and other places important to Tribes. The Bureau of Reclamation manages numerous land holdings and facilities within the planning area, including six hydroelectric dams and lands that are co-managed with the BLM under a memorandum of agreement with the Redding Field Office near the Shasta Dam and Keswick Reservoir. In addition to federally managed lands, there are an extensive number of State of California-managed beaches, parks, wildlife areas, and recreation areas in the planning area. The Arcata Field Office and Redding Field Office have taken these non-BLM-administered lands into account in this planning effort.

The Approved RMP balances resource use among competing human interests, land uses, and the conservation of natural and cultural resource values, while sustaining and enhancing ecological integrity across the landscape, including plant, wildlife, and fish habitat. The plan has varied landscapes with distinct management, and it incorporates a balanced level of

protection, restoration, and enhancement, as well as the use of resources and services to meet ongoing programs and land uses with an emphasis on local community visions for the future of public lands.

Through this collaborative planning effort, the Approved RMP describes the actions and management to guide future management and meet desired resource conditions. The preferred alternative for the Proposed RMP was carried forward into the Approved RMP with minor modifications. Notably, the management direction for the Sacramento River Bend Area of Critical Environmental Concern was updated, eliminating the need for BLM Authorized Officer approval for wildfire suppression actions related to life or private property. Additionally, the plan now recognizes recent changes in a community wildfire protection plan and emphasizes the importance of considering municipal plans during implementation.

The BLM provided the Proposed RMP/Final EIS for a 30-day public protest starting on June 21, 2024, and received six protest letters. The BLM Director resolved all protests. Responses to protest issues were compiled and documented in a Protest Resolution Report (see **ADDRESSES**). No changes to the Northwest California Integrated Resource Management Plan Proposed RMP/EIS were necessary as a result of protests.

The BLM provided the Proposed RMP/Final EIS to the Governor of California for a 60-day Governor's consistency review on June 21, 2024. No inconsistencies with state or local plans, policies or programs were identified during the Governor's consistency review of the Proposed RMP/Final EIS. No changes to the Northwest California Integrated Resource Management Plan Proposed RMP/EIS were necessary as a result of the Governor's consistency review.

BILLING CODE 4331-15-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Stipulated Order Under the Clean Air Act

On November 6, 2024, the Department of Justice lodged a proposed Stipulated Order with the United States District Court for the Eastern District of Missouri

in the lawsuit entitled *United States, et al v. Ameren Missouri*, Civil Action No. 4:11-cv-00077-RWS (E.D. Missouri).

The proposed Stipulated Order would resolve all remaining claims of the United States, on behalf of the United States Environmental Protection Agency ("EPA"), and those of Plaintiff-Intervenor Sierra Club, against Ameren Missouri ("Ameren"), regarding Clean Air Act violations at the utility's Rush Island coal-fired power plant in Festus, Missouri.

Under the proposed Stipulated Order, Ameren will implement two primary mitigation projects:

(1) A project to support the distribution of stand-alone HEPA purifier devices to residential customers within Ameren's service territory located predominantly in Eastern Missouri, prioritizing distribution to low-income households, and

(2) A project to promote the transition to electric school buses for schools in the St. Louis metropolitan and surrounding areas with the charging stations necessary to support these vehicles.

In the event certain benchmarks are not met when implementing the HEPA purifier and electric school bus programs, Ameren will complete a third mitigation project—administering funds for the purpose of implementing weatherization and energy efficiency upgrades that will reduce energy consumption by residential buildings in Ameren's service area.

The publication of this notice opens a period for public comment on the Stipulated Order. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States, et al. v. Ameren Missouri*, Civil Action No. 4:11-cv-00077-RWS, D.J. Ref. No. 90-5-2-1-09844 (E.D. Missouri). All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By e-mail	pubcomment-ees.enrd@usdoj.gov .
By mail	Assistant Attorney General, U.S. DOJ-ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the Stipulated Order may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. If you require assistance accessing the

proposed Stipulated Order, you may request assistance by email or by mail to the addresses provided above for submitting comments.

Jason A. Dunn,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410–15–P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Methylene Chloride Standard

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Occupational Safety & Health Administration (OSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before December 13, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Nicole Bouchet by telephone at 202–693–0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The standard requires employers to monitor employee exposure to methylene chloride (MC), to provide medical consultation and examinations, to train employees about the hazards of MC in their working areas, and to establish and maintain records of employee exposure to MC. These records will be used by employers, employees, physicians and the Government to ensure that employees are not being harmed by exposure to MC. Appendix B to section 1910.1052 contains medical surveillance questionnaire forms for workers that may be exposed to methylene chloride. Based on the animal evidence and three

epidemiologic studies previously mentioned, OSHA concludes that Methylene Chloride is a suspect human carcinogen. The medical surveillance program is designed to observe exposed workers on a regular basis. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 13, 2024 (89 FR 65937).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–OSHA.

Title of Collection: Methylene Chloride Standard.

OMB Control Number: 1218–0179.

Affected Public: Private Sector—Businesses or other for-profits.

Total Estimated Number of Respondents: 89,760.

Total Estimated Number of Responses: 251,235.

Total Estimated Annual Time Burden: 65,555 hours.

Total Estimated Annual Other Costs Burden: \$22,271,728.

(Authority: 44 U.S.C. 3507(a)(1)(D))

Nicole Bouchet,

Senior Paperwork Reduction Act Analyst.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NASA Document Number: 24–077; NASA Docket Number: NASA–2024–0013]

Name of Information Collection: NASA Agency Front Door

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of a new information collection.

SUMMARY: NASA, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (PRA).

DATES: Comments are due by January 13, 2025.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 60 days of publication of this notice at <http://www.regulations.gov> and search for NASA Docket NASA–2024–0013.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to NASA PRA Clearance Officer, Stayce Hoult, NASA Headquarters, 300 E Street SW, JC0000, Washington, DC 20546, phone 256–714–8575, or email hq-ocio-pra-program@mail.nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Aeronautics and Space Administration (NASA) is committed to effectively performing the Agency’s communication function in accordance with the Space Act Section 203 (a)(3) to “provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof,” and to enhance public understanding of, and participation in, the nation’s aeronautical and space program in accordance with the NASA Strategic Plan.
