

activities do not contribute significantly to the unreasonable risk.

In addition, as part of its evaluation, EPA has determined that 1,4-dioxane in drinking water sourced from surface water contaminated with industrial discharges of 1,4-dioxane (including when it is generated as a byproduct) and down-the-drain disposals of commercial and consumer products that are contaminated with 1,4-dioxane significantly contribute to the unreasonable risk from 1,4-dioxane. TSCA section 9(b) requires EPA to coordinate TSCA actions with actions taken under other Agency authorities. In coordinating regulatory action under TSCA with other offices at EPA, the Agency considered the authorities of the Safe Drinking Water Act (SDWA) and has determined that certain regulatory actions under the SDWA may also be appropriate. Therefore, as described in more detail in a memorandum included in this docket, and consistent with TSCA section 9(b)(1), OCSPP has memorialized this agreement for coordinated action on risks from 1,4-dioxane contamination in drinking water through actions under both TSCA section 6(a) and, for Office of Water consideration of remaining risks and appropriate action, under SDWA.

For more information about the TSCA risk evaluation process for existing chemicals, go to <https://www.epa.gov/assessing-and-managing-chemicals-under-tsca>.

Authority: 15 U.S.C. 2601 *et seq.*

Dated: November 7, 2024.

Michal Freedhoff,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2024-0482; FRL-12390-01-OW]

Agency Information Collection Activities; Proposed Information Collection Request; Comment Request; 2022 National Pollutant Discharge Elimination System (NPDES) Construction General Permit (CGP) for Stormwater Discharges From Construction Activities (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR),

2022 National Pollutant Discharge Elimination System (NPDES) Construction General Permit (CGP) for Stormwater Discharges from Construction Activities (Renewal) (EPA ICR Number 2686.03, OMB Control Number 2040-0305) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed renewal of the current ICR, which is currently approved through February 28, 2025. This notice allows for 60 days for public comments.

DATES: Comments must be submitted on or before January 13, 2025.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OW-2024-0482 to EPA online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Greg Schaner, Water Permits Division, Office of Wastewater Management, Office of Water at telephone number: (202) 564-0721 or email address: schaner.greg@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed renewal of the current ICR, which is currently approved through February 28, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

This notice allows 60 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments

and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate forms of information technology. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: EPA issued the 2022 National Pollutant Discharge Elimination System (NPDES) general permit for stormwater discharges from construction activities, also referred to as the "2022 Construction General Permit," or the "2022 CGP," on February 17, 2022. The 2022 CGP is issued for five (5) years to provide permit coverage to eligible construction operators in all areas of the country where EPA is the NPDES permitting authority.

The current ICR for the 2022 CGP expires on February 28, 2025. This proposed ICR will renew the existing ICR prior to expiration. The proposed ICR renewal will further EPA's specific needs to collect data related to the 2022 CGP, which include the following:

- To provide information supporting operator eligibility to be covered by the permit;
- To provide information to EPA and states to prioritize permit activities;
- To provide information on the quality of dewatering discharges to sensitive waters;
- To determine whether operators are in compliance with permit conditions; and
- To provide information to EPA to determine the need for and develop permit conditions.

The burden and costs associated with the entire NPDES program, including the administration of the 2017 CGP, are accounted for in the 2017 NPDES Program ICR (EPA ICR number 0229.23 OMB control no. 2040-0004). Certain changes in the 2022 CGP required revisions to the NPDES Program ICR to

reflect changes to the information collection requirements. Consistent with the past approach of changes to the NPDES Program, EPA reflected the paperwork burden and costs associated with the difference between the 2022 CGP and the 2017 CGP instead of revising the NPDES Program ICR. EPA will consolidate the burden and costs into the NPDES Program ICR (and discontinue this ICR) in a future reissuance of the NPDES Program ICR.

The information collection changes between the 2017 CGP and the 2022 CGP that is captured in the current ICR are associated with the following:

- New notice of intent (NOI) questions;
- New notice of termination (NOT) documentation requirements;
- New dewatering inspection requirements;
- New turbidity benchmark monitoring requirements for sites discharging dewatering water to sensitive waters; and
- Changes to Stormwater Pollution Prevention Plan (SWPPP) requirements, related to new and modified permit requirements.

Form Numbers: Notice of Intent (NPDES Form 3510–9), Notice of Termination (NPDES Form 3510–13), Turbidity Monitoring Reporting Form (NPDES Form 6100–065), Suggested Cationic Treatment Chemicals Form (NPDES Form 6100–066).

Respondents/affected entities: Coverage under the 2022 CGP is available to “operators” of construction activities in areas where EPA is the permitting authority and where the general permit is available for use. A list of eligible areas is included in appendix B of the 2022 CGP. The majority of construction activities will be carried out by builders, local developers, and contractors. Relevant Standard Industrial Classification (SIC) codes include the following: 1531, 1541, 1542, 1611, 1622, 1623, and 1629.

Respondent's obligation to respond: Mandatory under NPDES permits issued pursuant to Clean Water Act, 33 U.S.C. 1342(p) *et seq.*

Estimated number of respondents: EPA estimates that for the duration of the three-year ICR period approximately 10,893 operators will obtain coverage under the 2022 CGP, or 3,631 operators per year.

Frequency of response: Response frequencies in the 2022 CGP vary from once per permit term to quarterly.

Total estimated burden: EPA estimates that the information collection burden of the 2022 CGP is 200,383 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: EPA estimates that the final information collection cost of the 2022 CGP is \$15,610,581 per year.

Changes in the Estimates: The change in estimated burden between the current and renewal ICRs are attributable to the change in the number of respondents from 2,600 to 3,631 operators per year, which is based on the more accurate information EPA now has on the number of permitted operators from the first two years of the 2022 CGP. The change in the number of estimated respondents led to an increase in burden hours of 57,872 hours per year. Additionally, the labor rates used to calculate the estimated costs increased from \$62.77 per hour from the current ICR to \$73.47 per hour for the renewal ICR, which, combined with the increase in number of respondents, is the reason for the increase in total estimated cost of \$5,973,563 per year (*i.e.*, the difference between the estimated total cost of the renewal ICR of \$15,610,581 and the current ICR of \$9,637,018).

Andrew D. Sawyers,
Director, Office of Wastewater Management,
U.S. EPA.

FEDERAL DEPOSIT INSURANCE CORPORATION

Sunshine Act Meetings

TIME AND DATE: 10:03 a.m. on Tuesday, November 12, 2024.

PLACE: The meeting was held in the Board Room located on the sixth floor of the FDIC Building located at 550 17th Street, NW, Washington, DC.

STATUS: Closed.

MATTERS TO BE CONSIDERED: The Board of Directors of the Federal Deposit Insurance Corporation met to consider matters related to the Corporation’s resolution, supervision, and corporate activities. In calling the meeting, the Board determined, on motion of Director Michael J. Hsu (Acting Comptroller of the Currency), seconded by Director Rohit Chopra (Director, Consumer Financial Protection Bureau), by the unanimous vote of Chairman Martin J. Gruenberg, Vice Chairman Travis Hill, Director Jonathan McKernan, Director Michael J. Hsu (Acting Comptroller of the Currency), and Director Rohit Chopra (Director, Consumer Financial Protection Bureau), that Corporation business required its consideration of the matters which were to be the subject of this meeting on less than seven days’ notice to the public; that no earlier notice of the meeting was

practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A), (c)(9)(B), and (c)(10) of the “Government in the Sunshine Act” (5 U.S.C. 552b (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A), (c)(9)(B), and (c)(10)).

CONTACT PERSON FOR MORE INFORMATION: Requests for further information concerning the meeting may be directed to Debra A. Decker, Executive Secretary of the Corporation, at 202–898–8748.

Dated this 12th day of November, 2024.
Federal Deposit Insurance Corporation.

James P. Sheesley,
Assistant Executive Secretary.

FEDERAL MARITIME COMMISSION

Notice of Agreements Filed

The Commission hereby gives notice of filing of the following agreements under the Shipping Act of 1984. Interested parties may submit comments, relevant information, or documents regarding the agreements to the Secretary by email at Secretary@fmc.gov, or by mail, Federal Maritime Commission, 800 North Capitol Street, Washington, DC 20573. Comments will be most helpful to the Commission if received within 12 days of the date this notice appears in the **Federal Register**, and the Commission requests that comments be submitted within 7 days on agreements that request expedited review. Copies of the agreements are available through the Commission’s website (www.fmc.gov) or by contacting the Office of Agreements at (202)–523–5793 or tradeanalysis@fmc.gov.

Agreement No.: 201349–004.
Agreement Name: World Shipping Council Agreement.

Parties: COSCO Shipping Lines Co., Ltd., Orient Overseas Container Line Ltd., and OOCL (Europe) Limited (acting as a single party); CMA CGM S.A., APL Co. Pte. Ltd., American President Lines, LLC and ANL Singapore Pte Ltd.
