

BSEE has determined that, pursuant to 30 CFR 250.1010(h), these Outer Continental Shelf (OCS) pipelines and any related infrastructure are the

property of the United States and may be transferred to private parties. BSEE received the request from a private party seeking to acquire these pipeline

segments from the United States, as set forth in the table below:
Pipeline Segments with Pending Applications for Acquisition

Previous ROW holder	Previous PSN	Previous ROW	ROW relinquishment date
Cox Operating, L.L.C	17582	ROW OCS-G 28498	08/18/2019
Cox Operating, L.L.C	20235	ROW OCS-G 28498	08/18/2019

Purpose: The Department of the Interior has determined that these pipeline segments are subject to disposition pursuant to 40 U.S.C. 701 and the General Services Administration Federal Management Regulations at 41 CFR part 102-36. BSEE is providing notice that, until December 18, 2024, it will accept submissions of competing interest for acquisition of these pipeline segments. Depending on the level of interest, BSEE will complete a transfer of ownership of the pipelines to a private party through an appropriate transfer process.

In addition to transferring the pipeline interest, a new ROW will still be required pursuant to 30 CFR part 250, subpart J prior to any use of the pipelines. The transfer of pipeline ownership from the United States to another party will make that party responsible for the pipeline, including future operations, maintenance, and all decommissioning obligations.

Purpose of a Notice of Intent (NOI)

This NOI serves to inform interested parties of BSEE’s intent to transfer ownership of pipelines that are located in the previously described relinquished ROWs on the OCS, and to describe BSEE’s process for accepting submissions of competing interest.

BSEE will evaluate and respond to all submissions received pursuant to this NOI. If BSEE receives future requests to reuse other pipelines, it will issue similar NOIs to notify the public and to solicit statements of competing interest.

Instructions for the NOI

Parties interested in acquiring the aforementioned pipelines should submit the information outlined in the “Purpose” section above to the GOM Regional Supervisor for Regional Field Operations as provided in the

ADDRESSES section no later than December 18, 2024.

Kathryn Kovacs,
Deputy Assistant Secretary for Land and Minerals Management Exercising the Delegated Authorities of the Director, Bureau of Safety and Environmental Enforcement.

Abstract: 30 CFR 874.16 requires that every successful bidder for an AML contract must be eligible under 30 CFR 773.15(b)(1) at the time of contract award to receive a permit or conditional permit to conduct surface coal mining operations. Further, the regulation requires the eligibility to be confirmed by OSMRE's automated Applicant/Violator System (AVS) and the contractor must be eligible under the regulations implementing Section 510(c) of the Surface Mining Control and Reclamation Act to receive permits to conduct mining operations. This form provides a tool for OSMRE and the States/Indian tribes to help them prevent persons with outstanding violations from conducting further mining or AML reclamation activities in the State.
