Responses per Respondent: 1.
Annual Responses: 1,430,000.
Average Burden per Response: 7 minutes.

Annual Burden Hours: 166,833.
Needs and Uses: The Defense Biometric Identification Records System (also referred to as the DoD Automated Biometric Identification System (ABIS))

is an authoritative biometrics data repository that processes, matches, and stores biometric identity information data collected by Global United States (U.S.) forces during the course of military operations. The information processed by DoD ABIS is collected by DoD military personnel worldwide across the full range of military operations for DoD warfighting, intelligence, law enforcement, security, force protection, base access, homeland defense, counterterrorism, business enterprise purposes, and in information environment mission areas. Records collected by DoD military personnel using hand-held biometric collection devices include biometric information, such as images, photos, and templates of biological (anatomical and physiological) and/or behavioral characteristics that can be used for automated recognition, including, fingerprints, palm prints, facial images, iris images, DNA, and voice samples. Biographic information (such as name, date of birth, place of birth, height, weight, eye color, hair color, race, etc.) and contextual information (*i.e.*, organization, telephone number, office symbol, security clearance, etc.) is also collected by the DoD military personnel during the enrollment process. The information collected and processed by DoD ABIS may be shared with, accessed, and leveraged by DoD partners, U.S. Government inter-agency and departmental stakeholders, and approved multi-national partners for intelligence, counterterrorism, military force protection, national security, and law enforcement purposes.

Affected Public: Individuals or households.

Frequency: On occasion.
