Abstract of Information Available

A total of two lots of cultural items have been requested for repatriation. The unassociated funerary objects were removed from a limestone lined grave reported to be sixty miles north of Murray, Kentucky. The collection was donated to UAB at an unknown date. No cultural affiliation information is included in UAB's internal records, but the geographical origin of the objects and relevant archaeological information reasonably identify a cultural affiliation with the Cherokee Nation, Eastern Band of Cherokee Indians, Miami Tribe of Oklahoma, Quapaw Nation, Shawnee Tribe, and The Chickasaw Nation. There is no record of any potentially hazardous substances used to treat the unassociated funerary objects.

The University of Alabama at Birmingham has determined that:

The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.
