

Clearance for data collections to support research focused on identifying and addressing environmental factors associated with foodborne illness outbreaks and other food safety issues. These data are essential to environmental public health regulators' efforts to respond more effectively to and prevent future outbreaks and food safety-associated events.

An estimated 47.8 million foodborne illnesses occur annually in the United States, resulting in 127,839 hospitalizations, and 3,037 deaths annually. These figures indicate that foodborne illness is a significant problem in the U.S. Reducing foodborne illness requires identification and understanding of the environmental factors that cause these illnesses. CDC needs to know how and why food becomes contaminated with foodborne illness pathogens. This information can then be used to determine effective food safety prevention methods. Ultimately, these actions can lead to increased regulatory program effectiveness and decreased foodborne illness. The purpose of this food safety research program is to identify and understand environmental factors associated with foodborne illness and outbreaks. This

program is conducted by the Environmental Health Specialists Network (EHS-Net), a collaborative project of CDC, FDA, USDA, and local and state sites.

Environmental factors associated with foodborne illness include both food safety practices (e.g., inadequate cleaning practices) and the factors in the environment associated with those practices (e.g., worker and retail food establishment characteristics). To understand these factors, we need to collect data from those who prepare food (i.e., food workers) and on the environments in which the food is prepared (i.e., retail food establishment kitchens). Thus, data collection methods for this generic package include: (1) manager and worker interviews/information collection instruments; and (2) observation of kitchen environments. Both methods allow data collection on food safety practices and environmental factors associated with those practices.

To date, EHS-Net has conducted six studies under this Generic Clearance. The data from these studies have been disseminated to environmental public health/food safety regulatory programs and the food industry in the form of presentations at conferences and

meetings, scientific journal publications, and website postings. Data from these studies have been presented in 13 articles in peer-reviewed scientific journals, in multiple presentations at national food safety conferences, and on CDC's website.

The current package is a Revision of the previous PRA clearance from 2021. This package includes the potential for sites to offer incentives to participants in EHS-Net data collection activities. This will not result in an increased cost to the Federal Government because the cost of incentives is included in the existing EHS-Net cooperative agreement. The annual cost to the Federal Government has increased by a maximum of \$614 per year to cover the cost of Spanish translation of the manager and worker interview forms by the CDC Multilingual Services Team. CDC requests OMB approval for an estimated 844 annual burden hours. There is no change in the estimated annualized burden hours from the previous PRA Clearance and there is no cost to respondents other than their time to participate.

Estimated Annualized Burden Hours

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Retail managers	Manager Telephone Recruiting Script	889	1	3/60
	Manager Interview/Assessment	400	1	30/60
	Observation	400	1	30/60
Retail food workers	Worker Recruiting/Informed Consent Script ..	2,000	1	2/60
	Worker Interview/Assessment	2,000	1	10/60

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS' intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information (including each proposed extension or reinstatement of an existing collection of information) and to allow 60 days for public comment on the proposed action. Interested persons are invited to send comments regarding our burden estimates or any other aspect of this collection of information, including the necessity and utility of the proposed information collection for the proper performance of the agency's functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated

collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments must be received by January 24, 2025.

ADDRESSES: When commenting, please reference the document identifier or OMB control number. To be assured consideration, comments and recommendations must be submitted in any one of the following ways:

1. *Electronically.* You may send your comments electronically to <http://www.regulations.gov>. Follow the instructions for "Comment or Submission" or "More Search Options" to find the information collection document(s) that are accepting comments.

2. *By Regular Mail.* You may mail written comments to the following address: CMS, Office of Strategic Operations and Regulatory Affairs, Division of Regulations Development,

Attention: Document Identifier/OMB Control Number: _____, Room C4-26-05, 7500 Security Boulevard, Baltimore, Maryland 21244-1850.

SUPPLEMENTARY INFORMATION:

Contents

This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection's supporting statement and associated materials (*see ADDRESSES*).

CMS-10387 Minimum Data Set 3.0 Nursing Home and Swing Bed Prospective Payment System (PPS) For the collection of data related to the Patient Driven Payment Model and the Skilled Nursing Facility Quality Reporting Program (QRP)

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collections

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Minimum Data Set 3.0 Nursing Home and Swing Bed Prospective Payment System (PPS) For the collection of data related to the Patient Driven Payment Model and the Skilled Nursing Facility Quality Reporting Program (QRP); *Use:* We are requesting to implement the MDS 3.0

v1.20.1 beginning October 1, 2025 in order to meet the requirements of policies finalized in the Federal Fiscal Year (FY) 2025 Skilled Nursing Facility (SNF) Prospective Payment System (PPS) final rule (CMS-1802-F, RIN 0938-AV30). Specifically, we finalized the collection of four new items as standardized patient assessment data elements, modified one item collected as a standardized patient assessment data element, and removed twenty-two items that are not needed for case-mix adjusting the SNF per diem payment for PDPM. As a result of these changes, the total annual hour burden across facilities has decreased, and the annual cost burden across facilities has decreased. *Form Number:* CMS-10387 (OMB control number: 0938-1140); *Frequency:* Yearly; *Affected Public:* Private Sector: Business or other for-profit and not-for-profit institutions; *Number of Respondents:* 15,477; *Total Annual Responses:* 1,766,806; *Total Annual Hours:* 2,675,583. (For policy questions regarding this collection contact Heidi Magladry at 410-786-6034).
