

**SUPPLEMENTARY INFORMATION: Title:** FERC–523, Application for Authorization for the Issuance of Securities or the Assumption of Liabilities.

*OMB Control No.:* 1902–0043.

*Type of Request:* Three-year approval of the FERC–523 information collection requirements with no changes to the current reporting requirements.

*Abstract:* The information collected by FERC–523 is required to implement the statutory provisions of section 204 of the Federal Power Act (FPA) (16 U.S.C. 824c). Under section 204 of the FPA, no public utility or licensee shall issue any security, or assume any obligation or liability as guarantor,

endorser, surety, or otherwise in respect of any security of another person, until the public utility applies for and receives Commission approval by order authorizing the issuance or assumption of the liability. The Commission issues an order if it finds that such issuance or assumption (a) is for lawful object, within the corporate purposes of the applicant and compatible with the public interest, which is necessary or appropriate for or consistent with the proper performance by the applicant as a public utility, and which will not impair its ability to perform that service, and (b) is reasonably necessary or appropriate for such purposes.

The Commission uses the information contained in filings to determine its acceptance and/or rejection of applications for authorization to either issue securities or to assume an obligation or liability by the public utilities and licensees who submit these applications.

The specific application requirements and filing format are found at 18 CFR part 34, and 18 CFR 131.43 and 131.50. This information is filed electronically.

*Type of Respondents:* Public utilities subject to the Federal Power Act.

*Estimate of Annual Burden<sup>1</sup> and Cost:<sup>2</sup>* The Commission estimates the reduction in the annual public reporting burden for the FERC–523, as follows:

**FERC–523—APPLICATION FOR AUTHORIZATION FOR ISSUANCE OF SECURITIES OR THE ASSUMPTION OF LIABILITIES**

Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden hrs. & cost (\$) per response	Total annual burden hrs. & total annual cost (\$)	Cost per respondent (\$)
	(1)	(2)	(1) * (2) = (3)	(3) * (4) = (5)	(5) ÷ (1)
72 .....	1	72	70 hrs.; \$7,000 .....	5,040 hrs.; \$504,000 .....	\$7,000

*Comments:* Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

On October 23, 2024, the Commission issued an order announcing its intent to

revoke the market-based rate authority of several public utilities that had failed to file their required Electric Quarterly Reports.<sup>1</sup> The Commission directed those public utilities to file the required Electric Quarterly Reports within 15 days of the date of issuance of the order or face revocation of their authority to sell power at market-based rates and termination of their electric market-based rate tariffs.<sup>2</sup>

The time period for compliance with the October 23 Order has elapsed. The above-captioned companies failed to file their delinquent Electric Quarterly Reports. The Commission hereby revokes, effective as of the date of issuance of this notice, the market-based rate authority and terminates the electric market-based rate tariff of each of the companies who are named in the caption of this order.
