

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through November 30, 2024. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on September 19, 2024 (89 FR 76826) during a 60-day comment period. This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Environmental Protection Agency's (EPA) Office of Mission Support provides funding via grants to EPA's Exchange Network partners (states, territories, and federally recognized Indian tribes) to support the development of the Exchange Network (EN). The EN facilitates the sharing of environmental data, especially through shared and reusable services; streamlines data collection and exchanges to improve timeliness for decision making; increases the quality and access to environmental data; reduces burden and costs for co-regulators and the regulated community; supports better decisions on environmental and health issues; and increases capacity for environmental data management for tribes and U.S. territories. As part of the terms and conditions of the EN grant program, recipients are required to submit the following forms: (i) Semi-Annual Progress Reports (EPA Form 5300-26) twice annually throughout the lifetime of the project, Final Progress Report (EPA Form 5300-26) within 120 calendar days after the period of performance end date, and the IT Component and Project Registration Form, at the time of grant close-out. The information gathered on items (i) and (ii) help EPA to ensure that projects are on schedule to meet identified project goals and produce high quality environmental outputs. The registration form (item iii) provides a detailed summary of the completed project and any developed/reused IT components; this information is made available to future applicants to inform the development of their proposed projects,

promote the reuse of technologies, and connect to potential project partners and mentors.

Form Numbers: 5300-26.

Respondents/affected entities:

Employees of state, tribal, or territorial environmental government offices.

Respondent's obligation to respond:

Required to obtain or retain a benefit (2 CFR part 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards).

Estimated number of respondents:

223 (149 semi-annually for the semi-annual progress report form; 38 annually for the IT Component and Project Registration Form, and 38 annually for the Final Progress Report Form).

Frequency of response: EPA assumes that each grant recipient will submit two Semi-Annual Progress Report Forms each year the grant is active. In addition, the grantees will submit the Final Progress Report to RENC no later than 120 days after the grant performance period end date. At this time, the IT Component and Project Registration Form will likewise be submitted.

Total estimated burden: 493 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$29,530 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a slight decrease of 15 (493 hours in 2024 vs 508 hours in 2021) hours in the total estimated respondent burden as compared with the ICR currently approved by OMB. The number of open active grants each year was estimated at 149, which matches the 2021 estimate, as the number of new assistance agreements has remained consistent since 2021. Estimates for the Final Progress Reporting Form is also very similar to the 2021 estimate, with only a slight increase in the number of expected closed-out grants (from 36 in 2021 to 38 in 2024). This slight increase reflects an expectation for more EN assistance agreements to close out in the upcoming years, as projects which were initially delayed due to workplace changes associated with COVID-19 are now being completed. The slight decrease in burden hours for respondents can be attributed primarily to the retiring of the Quality Assurance Reporting Form, which was previously required within 90 days of each new assistance agreement. There was a new form added for this ICR, which was not present in the 2021 version. The IT Component and Project Registration Form is a fillable PDF form, that is

submitted by the grantee to their Regional Exchange Network Coordinator (RENC) at the time of grant close-out. As this form is due at the time of grant close-out, the estimated number matches the estimated number of Final Progress Reports (38). This new form is estimated to take 2 hours to complete, which is a decrease of 0.6 compared to the retired Quality Assurance Reporting Form.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2024-0057; FRL-11683-10-OCSPF]

Certain New Chemicals; Receipt and Status Information for October 2024

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is required under the Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, to make information publicly available and to publish information in the **Federal Register** pertaining to submissions under TSCA section 5, including notice of receipt of a Premanufacture notice (PMN), Significant New Use Notice (SNUN) or Microbial Commercial Activity Notice (MCAN), including an amended notice or test information; an exemption application (Biotech exemption); an application for a test marketing exemption (TME), both pending and/or concluded; a notice of commencement (NOC) of manufacture (including import) for new chemical substances; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review. This document covers the period from October 1, 2024 to October 31, 2024.

DATES: Comments identified by the specific case number provided in this document must be received on or before December 27, 2024.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2024-0057, through the *Federal eRulemaking Portal* at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI)

or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: For technical information contact: Jim Rahai, Project Management and Operations Division (MC 7407M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 564-8593; email address: rahai.jim@epa.gov. For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. What action is the Agency taking?

This document provides the receipt and status reports for the period from October 1, 2024 to October 31, 2024. The Agency is providing notice of receipt of PMNs, SNUNs, and MCANs (including amended notices and test information); an exemption application under 40 CFR part 725 (Biotech exemption); TMEs, both pending and/or concluded; NOCs to manufacture a new chemical substance; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review.

EPA is also providing information on its website about cases reviewed under the amended TSCA, including the section 5 PMN/SNUN/MCAN and exemption notices received, the date of receipt, the final EPA determination on the notice, and the effective date of EPA's determination for PMN/SNUN/MCAN notices on its website at: <https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tasca/status-pre-manufacture-notices>. This information is updated on a weekly basis.

B. What is the Agency's authority for taking this action?

Under the Toxic Substances Control Act (TSCA), 15 U.S.C. 2601 *et seq.*, a chemical substance may be either an "existing" chemical substance or a "new" chemical substance. Any chemical substance that is not on EPA's TSCA Inventory of Chemical Substances (TSCA Inventory) is classified as a "new chemical substance," while a chemical substance that is listed on the TSCA Inventory is classified as an "existing

chemical substance." (See TSCA section 3(11).) For more information about the TSCA Inventory please go to: <https://www.epa.gov/tasca-inventory>.

Any person who intends to manufacture (including import) a new chemical substance for a non-exempt commercial purpose, or to manufacture or process a chemical substance in a non-exempt manner for a use that EPA has determined is a significant new use, is required by TSCA section 5 to provide EPA with a PMN, MCAN, or SNUN, as appropriate, before initiating the activity. EPA will review the notice, make a risk determination on the chemical substance or significant new use, and take appropriate action as described in TSCA section 5(a)(3).

TSCA section 5(h)(1) authorizes EPA to allow persons, upon application and under appropriate restrictions, to manufacture or process a new chemical substance, or a chemical substance subject to a significant new use rule (SNUR) issued under TSCA section 5(a)(2), for "test marketing" purposes, upon a showing that the manufacture, processing, distribution in commerce, use, and disposal of the chemical will not present an unreasonable risk of injury to health or the environment. This is referred to as a test marketing exemption, or TME. For more information about the requirements applicable to a new chemical go to: <https://www.epa.gov/chemicals-under-tasca>.

Under TSCA sections 5 and 8 and EPA regulations, EPA is required to publish in the **Federal Register** certain information, including notice of receipt of a PMN/SNUN/MCAN (including amended notices and test information); an exemption application under 40 CFR part 725 (biotech exemption); an application for a TME, both pending and concluded; NOCs to manufacture a new chemical substance; and a periodic status report on the new chemical substances that are currently under EPA review or have recently concluded review.

C. Does this action apply to me?

This action provides information that is directed to the public in general.

D. Does this action have any incremental economic impacts or paperwork burdens?

No.

E. What should I consider as I prepare my comments for EPA?

1. *Submitting confidential business information (CBI).* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark

the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

II. Status Reports

In the past, EPA has published individual notices reflecting the status of TSCA section 5 filings received, pending, or concluded. In 1995, the Agency modified its approach and streamlined the information published in the **Federal Register** after providing notice of such changes to the public and an opportunity to comment (see the **Federal Register** of May 12, 1995 (60 FR 25798) (FRL-4942-7)). Since the passage of the Lautenberg amendments to TSCA in 2016, public interest in information on the status of section 5 cases under EPA review and, in particular, the final determination of such cases, has increased. In an effort to be responsive to the regulated community, the users of this information, and the general public, to comply with the requirements of TSCA, to conserve EPA resources and to streamline the process and make it more timely, EPA is providing information on its website about cases reviewed under the amended TSCA, including the section 5 PMN/SNUN/MCAN and exemption notices received, the date of receipt, the final EPA determination on the notice, and the effective date of EPA's determination for PMN/SNUN/MCAN notices on its website at: <https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tasca/status-pre-manufacture-notices>. This information is updated on a weekly basis.

III. Receipt Reports

For the PMN/SNUN/MCANs that have passed an initial screening by EPA during this period, Table I provides the following information (to the extent that such information is not subject to a CBI claim) on the notices screened by EPA

during this period: The EPA case number assigned to the notice that indicates whether the submission is an initial submission, or an amendment, a notation of which version was received, the date the notice was received by EPA, the submitting manufacturer (*i.e.*, domestic producer or importer), the potential uses identified by the manufacturer in the notice, and the chemical substance identity.

As used in each of the tables in this unit, (S) indicates that the information

in the table is the specific information provided by the submitter, and (G) indicates that this information in the table is generic information because the specific information provided by the submitter was claimed as CBI. Submissions which are initial submissions will not have a letter following the case number. Submissions which are amendments to previous submissions will have a case number followed by the letter "A" (*e.g.* P-18-

1234A). The version column designates submissions in sequence as "1", "2", "3", etc. Note that in some cases, an initial submission is not numbered as version 1; this is because earlier version(s) were rejected as incomplete or invalid submissions. Note also that future versions of the following tables may adjust slightly as the Agency works to automate population of the data in the tables.

TABLE I—PMN/SNUN/MCANS APPROVED * FROM 10/01/2024 TO 10/31/2024

Case No.	Version	Received date	Manufacturer	Use	Chemical substance
P-18-0127A	2	10/01/2024	Takasago	(S) Fragrance in fine fragrance, consumer products, household products (laundry detergent), shower gels and shampoos.	(S) Heptane, 2-methoxy-2-methyl-
P-21-0007A	2	10/25/2024	CBI	(G) Catalyst	(G) Reaction products of Aluminoxanes, Me, Me group-terminated and (alkyl)cycloalkenyl dialkylzirconium.
P-21-0008A	2	10/25/2024	CBI	(G) Catalyst	(G) Reaction products of Aluminoxanes, Me, Me group-terminated and cycloalkylene dialkyl tetrahydro indenyl zirconium.
P-22-0068A	4	10/04/2024	Aditya Birla Chemicals (USA), LLC.	(S) An epoxy component used in a reaction with other components to produce an epoxy article.	(S) 2-Propanamine, 1,1'-[(1-methylethylidene)bis(oxy)]bis-
P-23-0014A	2	10/25/2024	CBI	(G) Intermediate in production of fragrance.	(G) [Polyalkyl-methylenepolyhydro-polycyclic] alkyl acetate.
P-23-0086A	7	10/15/2024	CBI	(G) Additive for surfactant performance enhancement; intermediate used in the manufacturing of detergents.	(S) 1,2-Benzisothiazole, 3-methyl-, 1,1-dioxide.
P-24-0006A	7	10/14/2024	CBI	(S) Oilfield Production Scale Inhibitor.	(G) Propenoic acid, methyl- [phosphinobis(oxyethanedyl)] ester, telomer with methyl -methyl-propenoate, (phosphonooxy) ethyl methyl-propenoate, propenoic acid, sodium methyl-[(oxopropen-yl) amino]-propanesulfonate and sodium sulfite, sodium salt, peroxydisulfuric acid sodium salt -initiated.
P-24-0160A	3	09/30/2024	CBI	(G) Photoacid generator use at customer sites.	(G) Iodonium, bis (dialkyl carbomonocycle) salt with alkyl carbomonocycle hetero acid.
P-24-0186A	4	10/21/2024	SGP Ventures, Inc.	(S) Epoxy used to fill holes in printed circuit boards.	(S) 2-Oxiranemethanamine, N-[2-methyl-4-(2-oxiranylmethoxy) phenyl]-N-(2-oxiranylmethyl)-.
P-24-0193A	2	10/10/2024	CBI	(G) Dispersive use	(G) Perfluorosulfonic acid polymer, with perfluoro dioxolane.
P-24-0196	1	09/30/2024	Toray Resin Co.	(S) Additives for architectural paints (elongation improvers).	(S) 2-Pyrrolidinone, polymer with 2-oxepanone.
P-24-0196A	2	10/15/2024	Toray Resin Co.	(S) Additives for architectural paints (elongation improvers).	(S) 2-Pyrrolidinone, polymer with 2-oxepanone.
P-25-0001A	2	10/21/2024	Polyfil, Inc.	(G) UV initiated crosslinker	(G) Alkoxy benzophenone.
P-25-0001A	3	10/28/2024	CBI	(G) UV crosslinker initiator	(G) Alkoxy benzophenone.
P-25-0003	1	10/24/2024	CBI	(G) Contained use for microlithography for electronic device manufacturing.	(G) Phenoxathiinium, 10-phenyl-, tricycloalkylcarbomonocyclesulfonate (1:1).
P-25-0004	1	10/25/2024	CBI	(G) Contained use for microlithography for electronic device manufacturing.	(G) Sulfonium, triphenyl-, heteropolycycliccarboxylate (1:1).
P-25-0005	1	10/28/2024	CBI	(G) For use in coatings for metal parts.	(G) Cashew, nutshell liq., polymer with [(aminoalkyl)imino] bis[alkanol], bisphenol and epichlorohydrin, reaction products with dialkanolamine, alkyl carboxylates (salts) alkanesulfonates (salts).
P-25-0006	1	10/28/2024	CBI	(G) For use in coatings for metal parts.	(G) Phenol, 4,4-(1-alkylidene) bis-, polymer with [(aminoalkyl)imino] bis[alkanol] and 2-(chloromethyl) oxirane, 3-alkyloxy-2-hydroxypropyl ethers, reaction products with dialkanolamine, alkyl carboxylates (salts). alkanesulfonates (salts).
P-25-0007	1	10/28/2024	CBI	(G) For use in coatings for metal parts.	(G) Phenol, 4,4-(1-alkylidene) bis-, polymer with [(aminoalkyl)imino] bis[alkanol] and 2-(chloromethyl) oxirane, 4-alkylphenyl ethers, reaction products with dialkanolamine, alkyl carboxylates (salts) alkanesulfonates (salts).

TABLE I—PMN/SNUN/MCANS APPROVED * FROM 10/01/2024 TO 10/31/2024—Continued

Case No.	Version	Received date	Manufacturer	Use	Chemical substance
P-25-0008	1	10/28/2024	CBI	(G) For use in coatings for metal parts.	(G) Benzenediol, polymer with [(aminoalkyl)imino] bis[alkanol], 2- (chloromethyl)oxirane and 4,4-(1-alkylidene) bis[phenol], 4-alkylphenyl ethers, reaction products with dialkanolamine, alkyl carboxylates (salts) alkanesulfonates (salts).
P-25-0009	1	10/28/2024	CBI	(G) For use in coatings for metal parts.	(G) Cashew, nutshell liq., polymer with [(aminoalkyl)imino] bis[alkanol], bisphenol, epichlorohydrin and benzenediol, reaction products with dialkanolamine, alkyl carboxylates (salts) alkanesulfonates (salts).
P-25-0010	1	10/28/2024	CBI	(G) For use in coatings for metal parts.	(G) Benzenediol, polymer with [(aminoalkyl)imino] bis[alkanol], 2- (chloromethyl)oxirane and 4,4-(1-alkylidene) bis[phenol], 3-alkyloxy-2-hydroxypropyl ethers, reaction products with dialkanolamine, alkyl carboxylates (salts) alkanesulfonates (salts).
P-25-0012	1	10/30/2024	Bedoukian Research, Inc.	(G) Site limited chemical intermediate.	(G) Alkanoic acid, 4-bromo-, ethyl ester.
SN-22-0010A	4	10/24/2024	CBI	(S) Monomer chemical, reactive diluent in UV coating formulations (existing use, approved by PMN P-18-0392, additive in UV adhesive formulations (new use).	(S) 2-Oxazolidinone, 3-ethenyl-5-methyl-
SN-25-0001	1	10/16/2024	Ishihara Corporation (USA).	(S) Black pigment for architectural paint; Pigment used for non-spray applications (e.g., to make articles such as plastics, resins, fabrics, and textiles, use in adhesives).	(S) Calcium manganese titanium oxide.

In Table II of this unit, EPA provides the following information (to the extent that such information is not claimed as CBI) on the NOCs that have passed an initial screening by EPA during this period: The EPA case number assigned

to the NOC including whether the submission was an initial or amended submission, the date the NOC was received by EPA, the date of commencement provided by the submitter in the NOC, a notation of the

type of amendment (e.g., amendment to generic name, specific name, technical contact information, etc.) and chemical substance identity.

TABLE II—NOCs APPROVED * FROM 10/01/2024 TO 10/31/2024

Case No.	Received date	Commencement date	If amendment, type of amendment	Chemical substance
J-24-0016	10/16/2024	09/24/2024	N	(G) Chromosomally modified <i>Saccharomyces cerevisiae</i> .
J-24-0017	10/16/2024	09/24/2024	N	(G) Chromosomally modified <i>Saccharomyces cerevisiae</i> .

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NESHAP for Aerospace Manufacturing and Rework Facilities (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Aerospace Manufacturing and Rework Facilities (EPA ICR Number 1687.13, OMB Control Number 2060-0314) to the Office of Management and Budget (OMB) for review and approval

in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through November 30, 2024. Public comments were previously requested via the **Federal Register** on May 18, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before December 27, 2024.

ADDRESSES: Submit your comments, referencing Docket ID Number Docket ID Number EPA-HQ-OAR-2023-0124, to EPA online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through November 30, 2024. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on May 18, 2023 during a 60-day comment period (88 FR 31748). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit <https://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for the regulations published at 40 CFR part 63, subpart GG were proposed on June 6, 1994; promulgated on September 1, 1995; and amended on
