

mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Assessment of Environmental Performance Standards and Ecolabels for Federal Procurement.

EPA ICR No.: 2516.05.

OMB Control No.: 2070–0199.

ICR status: This ICR is currently approved through September 30, 2025. Under the PRA, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers the information collection activities associated with the Agency's evaluation of private sector standards and ecolabels per EPA's Framework for the Assessment of Environmental Performance Standards and Ecolabels for Federal Purchasing (Framework), formerly referred to as the Guidelines. EPA's goal in developing this Framework is to create a transparent, fair, and consistent approach to selecting product environmental performance standards and ecolabels to support the Agency's mission and federal sustainable acquisition goals and mandates. The fundamental aim of this Framework is to establish a cross-sector approach to be used in recognizing private sector environmental performance standards (and consequently, environmentally preferable products and services meeting these standards) for use in federal purchasing.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 8.5 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/affected entities: Entities potentially affected are standard development organizations, ecolabel programs, and certification entities that manage product or service environmental performance standards and/or ecolabels that could be considered for use in United States federal sustainable procurement efforts.

Respondent's obligation to respond: Voluntary. See 15 U.S.C. 3701 and 42 U.S.C. 13103(b)(11).

Forms: EPA Form No. 9600–038.

Frequency of response: On Occasion.

Total estimated number of potential respondents: 100.

Total estimated average number of responses for each respondent: 2.

Total estimated annual burden hours: 613 hours.

Total estimated annual respondent costs: \$49,284 which includes \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is a decrease in burden of 94 hours. The burden decrease is a result of the decrease of respondents that were not previously assessed per EPA Framework. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: November 21, 2024.

Michal Freedhoff,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Exchange Network Grants Progress Reports (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Exchange Network Grants Program (EPA ICR Number 2207.09, OMB Control Number 2025–0006) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through November 30, 2024. Public comments were previously requested via the **Federal Register** on September 19, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before December 27, 2024.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA ICR Number 2207.09, OMB Control Number 2025–0006 to EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Erin McGown, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; email address: mcgown.erin@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through November 30, 2024. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on September 19, 2024 (89 FR 76826) during a 60-day comment period. This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Environmental Protection Agency's (EPA) Office of Mission Support provides funding via grants to EPA's Exchange Network partners (states, territories, and federally recognized Indian tribes) to support the development of the Exchange Network (EN). The EN facilitates the sharing of environmental data, especially through shared and reusable services; streamlines data collection and exchanges to improve timeliness for decision making; increases the quality and access to environmental data; reduces burden and costs for co-regulators and the regulated community; supports better decisions on environmental and health issues; and increases capacity for environmental data management for tribes and U.S. territories. As part of the terms and conditions of the EN grant program, recipients are required to submit the following forms: (i) Semi-Annual Progress Reports (EPA Form 5300-26) twice annually throughout the lifetime of the project, Final Progress Report (EPA Form 5300-26) within 120 calendar days after the period of performance end date, and the IT Component and Project Registration Form, at the time of grant close-out. The information gathered on items (i) and (ii) help EPA to ensure that projects are on schedule to meet identified project goals and produce high quality environmental outputs. The registration form (item iii) provides a detailed summary of the completed project and any developed/reused IT components; this information is made available to future applicants to inform the development of their proposed projects,

promote the reuse of technologies, and connect to potential project partners and mentors.

Form Numbers: 5300-26.

Respondents/affected entities: Employees of state, tribal, or territorial environmental government offices.

Respondent's obligation to respond: Required to obtain or retain a benefit (2 CFR part 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards).

Estimated number of respondents: 223 (149 semi-annually for the semi-annual progress report form; 38 annually for the IT Component and Project Registration Form, and 38 annually for the Final Progress Report Form).

Frequency of response: EPA assumes that each grant recipient will submit two Semi-Annual Progress Report Forms each year the grant is active. In addition, the grantees will submit the Final Progress Report to RENC no later than 120 days after the grant performance period end date. At this time, the IT Component and Project Registration Form will likewise be submitted.

Total estimated burden: 493 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$29,530 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a slight decrease of 15 (493 hours in 2024 vs 508 hours in 2021) hours in the total estimated respondent burden as compared with the ICR currently approved by OMB. The number of open active grants each year was estimated at 149, which matches the 2021 estimate, as the number of new assistance agreements has remained consistent since 2021. Estimates for the Final Progress Reporting Form is also very similar to the 2021 estimate, with only a slight increase in the number of expected closed-out grants (from 36 in 2021 to 38 in 2024). This slight increase reflects an expectation for more EN assistance agreements to close out in the upcoming years, as projects which were initially delayed due to workplace changes associated with COVID-19 are now being completed. The slight decrease in burden hours for respondents can be attributed primarily to the retiring of the Quality Assurance Reporting Form, which was previously required within 90 days of each new assistance agreement. There was a new form added for this ICR, which was not present in the 2021 version. The IT Component and Project Registration Form is a fillable PDF form, that is

submitted by the grantee to their Regional Exchange Network Coordinator (RENC) at the time of grant close-out. As this form is due at the time of grant close-out, the estimated number matches the estimated number of Final Progress Reports (38). This new form is estimated to take 2 hours to complete, which is a decrease of 0.6 compared to the retired Quality Assurance Reporting Form.

Courtney Kerwin,

Director, Regulatory Support Division.

Certain New Chemicals; Receipt and Status Information for October 2024

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is required under the Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, to make information publicly available and to publish information in the **Federal Register** pertaining to submissions under TSCA section 5, including notice of receipt of a Premanufacture notice (PMN), Significant New Use Notice (SNUN) or Microbial Commercial Activity Notice (MCAN), including an amended notice or test information; an exemption application (Biotech exemption); an application for a test marketing exemption (TME), both pending and/or concluded; a notice of commencement (NOC) of manufacture (including import) for new chemical substances; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review. This document covers the period from October 1, 2024 to October 31, 2024.

DATES: Comments identified by the specific case number provided in this document must be received on or before December 27, 2024.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2024-0057, through the *Federal eRulemaking Portal* at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI)
