[Project No. 15300-001]

#### BOST1 Hydroelectric LLC; Notice of Surrender of Preliminary Permit

Take notice that BOST1 Hydroelectric LLC., permittee for the proposed Heard County Pumped Storage Project, has requested that its preliminary permit be terminated. The permit was issued on October 19, 2023,<sup>1</sup> and would have expired on September 30, 2027. The project would have been located approximately 1.8 miles west of the City of Enon Grove, Heard County, Georgia.

The preliminary permit for Project No. 15300 will remain in effect until the close of business, December 20, 2024. But, if the Commission is closed on this day, then the permit remains in effect until the close of business on the next day in which the Commission is open.<sup>2</sup> New applications for this site may not be submitted until after the permit surrender is effective.

[Docket No. CP21-465-004]

#### Driftwood Pipeline, LLC; Notice of Request for Extension of Time

Take notice that on November 13, 2024, Driftwood Pipeline, LLC (Driftwood Pipeline) requested that the Commission grant an extension of time, until October 21, 2027, to construct and place into service its Line 200 and Line 300 Project (Project), located in Beauregard and Calcasieu Parishes, Louisiana, as authorized in the April 21, 2023 Order Issuing Certificate (Order).<sup>1</sup> The Order required Driftwood Pipeline to complete construction of the Project and make it available for service within two years of the date of the Order, or by April 21, 2025.

Driftwood Pipeline states that it has experienced delays resulting from unforeseen circumstances, including litigation delays from an appeal of the Certificate Order in the United States Court of Appeals for the District of Columbia Circuit and uncertainty associated with impending changes in company leadership and other personnel related to a change in ownership of Driftwood Pipeline's parent company. Driftwood Pipeline states that these issues further complicated efforts to reach a final investment decision, and thus additional time is required for completing construction of the Project and placing it into service.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Driftwood Pipeline's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,<sup>2</sup> the Commission will aim to issue an order acting on the request within 45 days.<sup>3</sup> The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.<sup>4</sup> The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.<sup>5</sup> At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.<sup>6</sup> The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.
