[Project No. 2905-035]

Village of Enosburg Falls, Vermont; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a subsequent license to continue to operate and maintain the Enosburg Falls Hydroelectric Project No. 2905 (project). The project is located on the Missisquoi River in the Village of Enosburg Falls, Franklin County, Vermont. Commission staff has prepared an Environmental Assessment (EA) for the project.

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that
