

the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA), 42 U.S.C. 7384. All three of these statutes require that OWCP pay for medical treatment of beneficiaries; this medical treatment can include inpatient/outpatient hospital services, as well as services provided by nursing homes and skilled nursing facilities. In order to determine whether billed amounts are appropriate, OWCP needs to identify the patient, the specific services that were rendered and their relationship to the work-related injury or illness. The regulations implementing these statutes require the use of Form OWCP-04 or OWCP-04 for the submission of medical bills from institutional providers (20 CFR 10.801, 30.701, 725.405, 725.406, 725.701 and 725.715).

The Uniform Billing Form, also known as the paper OWCP-04, has been approved by the American Hospital Association. It is used by the Centers for Medicare and Medicaid Services (CMS), Tricare, the Department of Veterans Affairs (DVA), and the private sector to request payment to institutional providers for medical services. The paper OWCP-04 has been designed by the National Uniform Billing Committee and is neither a government-printed form nor distributed by OWCP; OWCP has, however, developed detailed instructions for institutional providers that use the OWCP-04 to ensure that they provide the information needed to evaluate their requests for payment. The paper OWCP-04 is an ideal billing instrument for the provider community that services FECA, BLBA and EEOICPA beneficiaries because of its familiarity, its common use, and its acceptance by both government and private health service payers.

II. Desired Focus of Comments

OWCP is soliciting comments concerning the proposed information collection related to the Uniform Billing Form.

OWCP is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of OWCP's estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the information collection on those who are

to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Background documents related to this information collection request are available at <https://regulations.gov> and at DOL-OWCP located at 200 Constitution Avenue NW, Room S-3524, Washington, DC 20210. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

III. Current Actions

Title: Proof of Concept for New Charter Organizing Groups.

Type of Review: Extension of a previously approved collection.

Abstract: The Office of Credit Union Resources and Expansion (CURE) is responsible for the review and approval of charter applications submitted by organizing groups. CURE has implemented a charter modernization process to improve the quality of charter applications received. This will help ensure organizing groups submit a well-thought out, well-developed charter plan to minimize the back and forth communication and improve overall chartering processing times. CURE management implemented the Proof of Concept (POC) data collection through the CyberGrants system, which documents the four most critical elements for establishing a new charter. The information collection is needed to determine the adequacy of a group's chartering concept and provide guidance, as needed, and would identify the level of understanding an organizing group has before they make a formal charter application submission as prescribed by appendix B to 12 CFR part 701 (12 U.S.C. 1758, 1759).

Affected Public: Private Sector: Not-for-profit institutions.

Estimated Total Annual Burden Hours: 104.

OMB Number: 3133-0207.

Title: Subordinated Debt, 12 CFR Part 702, subpart D.

Type of Review: Extension of a previously approved collection.

Abstract: Subpart D of part 702 addresses limits on loans to other credit unions; an expansion of the borrowing rule to clarify that federal credit unions

(FCUs) can borrow from any source; revisions to the risk-based capital (RBC) rule, and the payout priorities in an involuntary liquidation rule to account for Subordinated Debt and Grandfathered Secondary Capital; and cohering changes to part 741 to account for the other changes proposed in this rule that apply to federally insured, state-chartered credit unions (FISCUs). The borrowing authority granted to FCUs by the FCU Act, along with FCUs' statutory authority to enter into contracts and exercise incidental powers necessary or required to enable the FCUs to effectively carry on their business, supports the legal analysis that FCUs are authorized to incur indebtedness through the issuance of debt securities of the type contemplated by this proposed rule. This rule would permit LICUs, Complex Credit Unions, and New Credit Unions to issue Subordinated Debt Notes for purposes of regulatory capital treatment. It contains a series of requirements in respect of the Subordinated Debt and Subordinated Debt Note, disclosures and offering materials, repayment (including prepayment), and regulatory capital treatment.

Affected Public: Private Sector: Not-for-profit institutions.

Estimated Total Annual Burden Hours: 5,662.

Request for Comments: Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record. The public is invited to submit comments concerning: (a) whether the collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of the information on the respondents, including the use of automated collection techniques or other forms of information technology.

By the National Credit Union Administration Board.

Melane Conyers-Ausbrooks,

Secretary of the Board.

SUPPLEMENTARY INFORMATION:

I. Introduction

Under section 2.106 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is providing notice of the issuance of Construction Permits, CPTR-7 and CPTR-8, to Kairos for the two units of the proposed Hermes 2 test reactor facility. The construction permits, which are immediately effective, authorize Kairos to construct a test reactor facility, as described in Kairos's construction permit application, in Oak Ridge, Tennessee. With respect to the construction permit application filed by Kairos, the NRC finds that the applicable standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations have been met. The NRC finds that any required notifications to other agencies or bodies have been duly made and that, among other things, there is reasonable assurance that the activities authorized by the permits will be conducted in compliance with the rules and regulations of the Commission, that safety questions will be satisfactorily resolved by the completion of construction, and that, taking into consideration siting criteria, the proposed facility can be constructed and operated at the proposed location without undue risk to public health and safety, subject to the conditions listed in the construction permits. Furthermore, the NRC finds that the licensee is technically and financially qualified to engage in the activities authorized, and that issuance of the license will not be inimical to the common defense and security or to the health and safety of the public. Finally, the NRC finds that the findings required by 10 CFR part 51, subpart A, have been made.

Accordingly, the immediately effective construction permits were issued on November 21, 2024.

II. Further Information

The NRC prepared a Safety Evaluation (SE) as well as an Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) that document the NRC's evaluation of Kairos's construction permit application and the NRC's findings. The Commission also issued its Memorandum and Order documenting its final decision on the mandatory hearing on November 20, 2024. In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," details with respect to this
