

Background

On April 23, 2024, Commerce initiated an LTFV investigation of imports of epoxy resins from China.¹ The period of investigation is October 1, 2023, through March 31, 2024. On November 13, 2024, Commerce published its *Preliminary Determination* of sales at LTFV of epoxy resins from China.²

Postponement of Final Determination

Section 735(a)(2) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.210(b)(2) provide that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by the exporters or producers who account for a significant proportion of exports of the subject merchandise, or in the event of a negative preliminary determination, a request for such postponement is made by the petitioners. Further, 19 CFR 351.210(e)(2) requires that such postponement requests by exporters be accompanied by a request for extension of provisional measures from a four-month period to a period of not more than six months, in accordance with section 733(d) of the Act.

On November 18, 2024, Huntsman Advanced Materials (Guangdong) Company Ltd. (Huntsman), the mandatory respondent in this investigation, requested that Commerce postpone the deadline for the final determination until no later than 135 days from the publication of the *Preliminary Determination*, and extend the application of the provisional measures from a four-month period to a period of not more than six months.³

In accordance with section 735(a)(2)(A) of the Act and 19 CFR 351.210(b)(2)(ii), because: (1) the *Preliminary Determination* was affirmative; (2) the request was made by an exporter or producer who accounts for a significant proportion of exports of the subject merchandise; and (3) no compelling reasons for denial exist, Commerce is postponing the final

determination until no later than 135 days after the date of the publication of the *Preliminary Determination*, and extending the provisional measures from a four-month period to a period of not more than six months. Accordingly, Commerce will issue its final determination no later than March 28, 2025.

Notification to Interested Parties

This notice is issued and published pursuant to section 735(a)(2) of the Act and 19 CFR 351.210(g).

Dated: November 22, 2024.

Abdelali Elouaradia,

Deputy Assistant Secretary for Enforcement and Compliance.

Fisheries of the Exclusive Economic Zone Off Alaska; Bering Sea and Aleutian Islands Management Area; Cost Recovery Fee Notice for the Western Alaska Community Development Quota and Trawl Limited Access Privilege Programs

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of standard prices and fee percentage.

SUMMARY: NMFS publishes standard prices and fee percentages for cost recovery for the Amendment 80 Program, the American Fisheries Act (AFA) Program, the Aleutian Islands Pollock (AIP) Program, and the Western Alaska Community Development Quota (CDQ) Program in the Bering Sea Aleutian Islands (BSAI) management area. The fee percentages for 2024 are 1.86 percent for the Amendment 80 Program, 0.24 percent for the AFA inshore cooperatives, 0 percent for the AIP program, and 1.38 percent for the CDQ Program. This notice is intended to provide the 2024 standard prices and fee percentages to calculate the required payment for cost recovery fees due by December 31, 2024.

DATES: The standard prices and fee percentages are valid on November 29, 2024.

FOR FURTHER INFORMATION CONTACT: Charmaine Weeks, Fee Coordinator, 907-586-7231.

SUPPLEMENTARY INFORMATION:

Background

Section 304(d) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) authorizes and requires that NMFS collect cost recovery fees for limited access privilege programs and the CDQ Program. Cost recovery fees include NMFS' actual costs directly related to its management, data collection, and enforcement of the programs. Section 304(d) of the Magnuson-Stevens Act mandates that cost recovery fees not exceed 3 percent of the annual ex-vessel value of fish harvested under any program subject to a cost recovery fee and that the fee be collected either at the time of landing, filing of a landing report, or sale of such fish during a fishing season or in the last quarter of the calendar year in which the fish is harvested.

NMFS manages the Amendment 80 Program, AFA Program, and AIP Program as limited access privilege programs. On January 5, 2016, NMFS published a final rule to implement cost recovery for these three limited access privilege programs and the CDQ program (81 FR 150). The designated representative (for the purposes of cost recovery) for each program is responsible for submitting the fee payment to NMFS on or before December 31 of the year in which the landings were made. The total dollar amount of the fee due is determined by multiplying the NMFS published fee percentage by the ex-vessel value of all landings under the program made during the fishing year. NMFS publishes this notice of the fee percentages for the Amendment 80, AFA, AIP, and CDQ programs in the **Federal Register** by December 1 each year.

Standard Prices

The fee liability is based on the ex-vessel value of fish harvested in each program. For purposes of calculating cost recovery fees, NMFS uses a standard ex-vessel price (standard price) for each species. A standard price is determined using information on landings purchased (volume) and ex-vessel value paid (value). For most groundfish species, NMFS annually summarizes volume and value information for landings of all fishery species subject to cost recovery to estimate a standard price for each species. The standard prices are described in U.S. dollars per pound for landings made during the year. The standard prices for all species in the Amendment 80, AFA, AIP, and CDQ programs are provided in Table 1. Each

¹ See *Certain Epoxy Resins from the People's Republic of China, India, the Republic of Korea, Taiwan, and Thailand: Initiation of Less-Than-Fair-Value Investigations*, 89 FR 33324 (April 29, 2024).

² See *Certain Epoxy Resins from the People's Republic of China: Preliminary Affirmative Determination of Sales at Less Than Fair Value and Preliminary Affirmative Determination of Critical Circumstances*, 89 FR 89594 (November 13, 2024) (*Preliminary Determination*).

³ See Huntsman's Letter, "Request to Postpone Final Determination," dated November 18, 2024.

landing made under each program is multiplied by the appropriate standard price to arrive at an ex-vessel value for each landing. These values are summed together to arrive at the ex-vessel value of each program (fishery value).

TABLE 1—STANDARD EX-VESSEL PRICES BY SPECIES FOR THE 2024 FISHING YEAR

Species	Gear type	Reporting period	Standard ex-vessel price per pound (\$)
Arrowtooth flounder	All	January to December	0.26
Atka mackerel	All	January to December	0.24
Flathead sole	All	January to December	0.18
Greenland turbot	All	January to December	0.59
CDQ halibut	Fixed gear	January to December	4.15
Pacific cod	Fixed gear	January to December	0.30
	Trawl gear	January to December	0.25
	All	January to December	0.18
Pacific ocean perch	All	January to December	0.18
Pollock	All	January to December	0.18
Rock sole	All	January to March	0.18
	All	April to December	0.17
	All	January to December	1.22
Sablefish	Fixed gear	January to December	1.22
	Trawl gear	January to December	0.69
Yellowfin sole	All	January to December	0.16

Fee Percentage

Annually, NMFS calculates the applicable fee percentage for each of the four programs according to the factors and methods described at 50 CFR 679 under §§ 679.33(c)(2) for CDQ, 679.66(c)(2) for AFA, 679.67(c)(2) for AIP, and 679.95(c)(2) for Amendment 80. NMFS determines the fee percentage that applies to landings made during the year by dividing the total costs directly related to the management, data collection, and enforcement of each program (direct program costs) during the year by the fishery value. NMFS captures direct program costs through an established accounting system that allows staff to track labor, travel, contracts, rent, and procurement costs. For 2024, the direct program costs for each program were tracked from October 1, 2023 to September 30, 2024 (the end of the fiscal year). The decline in fishery values caused an increase from the 2023 fee percentage for Amendment 80 Program and CDQ. A decline in both fishery values and direct costs caused a slight decline from the 2023 fee percentage for AFA. The 2024 percentage for the AIP Program is zero because there was no AIP fishery in 2024, thus no associated harvest.

NMFS will provide an annual report that summarizes direct program costs for each of the programs in early 2025. NMFS calculates the values for each fishery as described earlier under the Standard Prices section of this notice.

Amendment 80 Program Standard Prices and Fee Percentage

The Amendment 80 Program allocates total allowable catches (TACs) of groundfish species, other than Bering

Sea pollock, to identified trawl catcher/processors fishing in the BSAI. The Amendment 80 Program allocates a portion of the BSAI TACs of six species: Atka mackerel, Pacific cod, flathead sole, rock sole, yellowfin sole, and Aleutian Islands Pacific ocean perch. In recent years, participants in the Amendment 80 sector have established a cooperative to harvest these allocations. Each Amendment 80 cooperative is responsible for payment of the cost recovery fee for fish landed under the Amendment 80 Program. Cost recovery requirements for the Amendment 80 Program are at § 679.95.

For Amendment 80 species other than rock sole, NMFS annually summarizes volume and value information for landings of all fishery species subject to cost recovery in order to estimate a standard price for each fishery species. Regulations specify that for rock sole, NMFS shall calculate a separate standard price for two periods, January 1 through March 31 and April 1 through October 31, which has historically accounted for a substantial difference in estimated rock sole prices during the first quarter of the year relative to the remainder of the year. The volume and value information are obtained from the First Wholesale Volume and Value Report submitted by catcher/processors that harvested Amendment 80 or CDQ species, and the Pacific Cod Ex-Vessel Volume and Value Report submitted by shoreside processors and motherships that processed landings of BSAI or CDQ Pacific cod.

Using the fee percentage formula described generally above, the estimated percentage of direct program costs to fishery value for the 2024 calendar year

is 1.86 percent for the Amendment 80 Program. For 2024, NMFS applied the fee percentage to each Amendment 80 species landing that was debited from an Amendment 80 cooperative quota allocation between January 1 and December 31 to calculate the Amendment 80 fee liability for each Amendment 80 cooperative. The 2024 fee payments must be submitted to NMFS on or before December 31, 2024. Payment must be made in accordance with the payment methods set forth in § 679.95(a)(3)(iv).

AFA Standard Price and Fee Percentages

The AFA Program allocates the Bering Sea directed pollock fishery TAC to three sectors: catcher/processor, mothership, and inshore. Each sector has established cooperatives to harvest the sector's exclusive allocation. In 2024, each cooperative for the inshore sector is responsible for paying the fee for Bering Sea pollock landed under the AFA Program. Cost recovery requirements for the AFA sectors are found at § 679.66.

NMFS calculates the standard price for pollock using the most recent annual value information reported to the Alaska Department of Fish and Game for the Commercial Operator's Annual Report and compiled in the Alaska Commercial Fisheries Entry Commission Gross Earnings data. Due to the time required to compile the data, there is a 1-year delay between the gross earnings data year and the fishing year to which it is applied. For example, NMFS used 2023 gross earnings data to calculate the standard price for 2024 pollock landings.

Under the fee percentage formula described above, the estimated percentage of direct program costs to fishery value for the 2024 calendar year is 0.24 percent for the AFA inshore sector. To calculate the 2024 fee liabilities, NMFS applied the respective fee percentages to the landings of Bering Sea pollock debited from each cooperative's fishery allocation that occurred between January 1 and December 31. The 2024 fee payments must be submitted to NMFS on or before December 31, 2024. Payment must be made in accordance with the payment methods set forth in § 679.66(a)(4)(iv).

AIP Program Standard Price and Fee Percentage

The AIP Program allocates the Aleutian Islands directed pollock fishery TAC to the Aleut Corporation, consistent with the Consolidated Appropriations Act of 2004 (Pub. L. 108–109) and implementing regulations. Annually, prior to the start of the pollock season, the Aleut Corporation provides NMFS with the identity of its designated representative for harvesting the Aleutian Islands directed pollock fishery TAC. The same individual is responsible for the submission of all cost recovery fees for pollock landed under the AIP Program. Cost recovery requirements for the AIP Program are at § 679.67.

NMFS calculates the standard price for pollock using the most recent annual value information reported to the Alaska Department of Fish and Game for the Commercial Operator's Annual Report and compiled in the Alaska Commercial Fisheries Entry Commission Gross Earnings data for Aleutian Islands pollock. As explained above, due to the time required to compile the data, there is a 1-year delay between the gross earnings data year and the fishing year to which it is applied.

For the 2024 fishing year, the Aleut Corporation did not select any participants to harvest or process the Aleutian Islands directed pollock fishery TAC, and most of that TAC was reallocated to the Bering Sea directed pollock fishery TAC. Since there was no fishery for the AIP Program in 2024, the fee percentage is zero.

CDQ Standard Price and Fee Percentage

The CDQ Program was implemented in 1992 to provide access to BSAI fishery resources to villages located in Western Alaska. Section 305(i) of the Magnuson-Stevens Act identifies 65 villages eligible to participate in the CDQ Program and the six CDQ groups to represent these villages. CDQ groups receive exclusive harvesting privileges

of the TACs for a broad range of crab species, groundfish species, and halibut. NMFS implemented a CDQ cost recovery program for the BSAI crab fisheries in 2005 (70 FR 10174, March 2, 2005) and published the cost recovery fee percentage for the 2023/2024 crab fishing year on July 2, 2024 (89 FR 54785). This notice provides the cost recovery fee percentage for the CDQ Program with respect to groundfish and halibut. Each CDQ group is subject to cost recovery fee requirements and the designated representative of each CDQ group is responsible for submitting payment for their CDQ group. Cost recovery requirements for the CDQ Program are at § 679.33.

For most CDQ groundfish species, NMFS annually summarizes volume and value information for landings of all fishery species subject to cost recovery in order to estimate a standard price for each fishery species. The volume and value information are obtained from the First Wholesale Volume and Value Report and the Pacific Cod Ex-Vessel Volume and Value Report. For CDQ halibut and fixed-gear sablefish, NMFS calculates the standard prices using information from the Individual Fishing Quota (IFQ) Ex-Vessel Volume and Value Report, which collects information on both IFQ and CDQ volume and value.

Using the fee percentage formula described above, the estimated percentage of direct program costs to fishery value for the 2024 calendar year is 1.38 percent for the CDQ Program. For 2024, NMFS applied the calculated CDQ fee percentage to all CDQ groundfish and halibut landings made between January 1 and December 31 to calculate the CDQ fee liability for each CDQ group. The 2024 fee payments must be submitted to NMFS on or before December 31, 2024. Payment must be made in accordance with the payment methods set forth in § 679.33(a)(3)(iv).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 26, 2024.

Karen H. Abrams,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Report of Whaling Operations

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on July 17, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Report of Whaling Operations.

OMB Control Number: 0648–0311.

Form Number(s): None.

Type of Request: Regular submission [extension of a current information].

Number of Respondents: 95 (There are approx. 165 whaling captains, but many of them do not strike or land a whale in any given year).

Average Hours per Response: 30 minutes for reports on whales struck or on recovery of dead whales, including providing the information to the Native American whaling organization; 1 hour for the Native American whaling organization to type in each report; and 2½ hours for the Native American whaling organization to consolidate and submit reports.

Total Annual Burden Hours: 61.

Needs and Uses: This request is for extension of a current information collection. Native Americans may conduct certain aboriginal subsistence whaling under the Whaling Convention Act in accordance with the provisions of the International Whaling Commission (IWC). In order to respond to obligations under the International Convention for the Regulation of Whaling, the IWC, and the Whaling Convention Act, whaling captains participating in these operations must submit certain information to the Native American whaling organization about strikes and
