

Under this new information collection, the Commission will collect the information, disclosures, and certifications required by §§ 1.21001(b) and 54.1014(a) of the Commission's rules from each applicant seeking to participate in a 5G Fund auction, and will use the information, disclosures, and certifications to determine whether an applicant is legally, technically, and financially qualified to participate in a 5G Fund auction. To aid in collecting this information, the Commission has created FCC Form 184, which will be used to provide the information, disclosures, and certifications required by §§ 1.21001(b) and 54.1014(a). Commission staff will review the information, disclosures, and certifications collected on FCC Form 184 as part of the pre-auction process, prior to the start of the auction, and determine whether each applicant satisfies the Commission's requirements to participate in an auction for 5G Fund support. Without the information collected on FCC Form 184, the Commission will not be able to determine if an applicant is legally qualified to participate in a 5G Fund auction and has complied with the various applicable regulatory and statutory auction requirements for such participation. This approach provides an appropriate screen to ensure serious participation without being unduly burdensome.

Total Annual Burden: 195,615 hours.

Total Annual Cost: No cost.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB), which is a revision of a currently approved collection, to obtain a full three-year clearance from OMB. The requirements contained herein are necessary to implement the Congressional mandate for universal service. It provides the Commission and USAC with the necessary information to administer the E-Rate program, determine the amount of support entities seeking funding are eligible to receive, to determine if entities are complying with the Commission's rules, and to prevent waste, fraud, and abuse. The information will also allow the Commission to evaluate the extent to which the E-Rate program is meeting the statutory objectives specified in section 254 of the 1996 Act, the Commission's performance goals established in the *2014 First and Second E-Rate Orders*, and to evaluate the need and feasibility for any future revisions to program rules.

FCC Forms 472, 473, and 474 were revised. On July 29, 2024 the Commission released a Report and Order and Further Notice of Proposed Rulemaking (WC Docket No. 21-31, FCC 24-76) (*Report and Order*); finding that the off-premises use of wireless internet services and the Wi-Fi hotspot devices needed to deliver the services; serves an educational purpose and are eligible for E-Rate support. The *Report and Order*, 89 FR 67303, August 20, 2024, adds certifications to the FCC Form 473 for participating service providers on the hotspots non-usage notice and termination requirement, prohibition against charging the balance for terminated services, and certifying that the cost of Wi-Fi hotspots do not exceed commercial value. The *Report and Order* also adds a certification to FCC Forms 472 and 474 to certify that there is no duplicative funding and funding is not being requested for eligible equipment and services that have been funded by other sources. The hourly burden will increase by 50,865 hours for FCC Forms 472, 473, and 474. The public burden for the collection contained herein will increase to 195,615 burden hours.

FCC Form 472 "Billed Entity Applicant Reimbursement Form." Billed

entities may pay the full amount for eligible services directly to the service providers and then, once services have been received, seek reimbursement from USAC to cover the amounts of the discounts for which they have qualified. The FCC Form 472 is used by the billed entity to request such reimbursement from USAC. USAC disburses payments directly to the billed entity to cover services that have been properly invoiced. The information on FCC Form 472 enables this direct reimbursement process. This information includes the amount paid for approved services delivered on or after the actual services start date, as reported on the FCC Form 486 (approved under OMB Control No. 3060–0853).

FCC Form 473 “Service Provider Annual Certification Form.” The FCC Form 473 must be filed by service providers to attest that the invoices submitted under the E-Rate program comply with the FCC’s rules. The service provider must annually submit an FCC Form 473 for each service provider identification number (SPIN).

FCC Form 474 “Service Provider Invoice (SPI) FCC Form 474.” As an alternative to paying in full for eligible services, the billed entity can pay only the amounts for eligible services that have been discounted already by the service provider. Under this alternative, once services have been received, service providers seek payment from USAC to cover the amounts of the discounts for which the billed entity qualifies. Service providers use the FCC Form 474 to request direct payment for invoices submitted for services that comply with the rules of the E-Rate program. The information on the FCC Form 474 must be received by USAC before a participating service provider can receive payment for the discounted portion of its bill for eligible services to eligible entities. Subsequent to receipt and review of the FCC Form 474, USAC will authorize payment based on the invoices.

All of the requirements contained in this information collection are necessary to implement the Congressional mandate for the E-Rate program and reimbursement process.
