POLICY JUSTIFICATION

Israel—M830A1 120mm Tank Cartridges

The Government of Israel has requested to buy thirteen thousand nine hundred eighty-one (13,981) 120mm M830A1 High Explosive Anti-Tank Multi-Purpose with Tracer (MPAT) tank cartridges. Also included are publications and technical documentation; U.S. Government and contractor engineering, technical, and logistics support services; studies and surveys; and other related elements of logistics and program support. The estimated total cost is \$106.5 million.

The Secretary of State has determined and provided detailed justification that an emergency exists that requires the immediate sale to the Government of Israel of the above defense articles (and defense services) in the national security interests of the United States, thereby waiving the Congressional review requirements under Section 36(b) of the Arms Export Control Act, as amended.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

Israel will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Israel will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

This will be a sale from U.S. Army inventory. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–15

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The 120mm M830A1 High Explosive Anti-Tank Multi-Purpose with Tracer (MPAT) tank cartridge is a line-of-sight, full-bore, multipurpose munition for the Abrams tank. It requires the gunner to manually select the fuze mode to either point detonate against buildings, bunkers, and light armor vehicles or similar target sets, or proximity for anti-helicopter self-defense capabilities.

2. The highest level of classification of defense articles, components, and services included in this potential sale is Controlled Unclassified Information.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Israel will provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Israel.

POLICY JUSTIFICATION

Poland—Communications Equipment

The Government of Poland has requested to buy communications equipment, including AN/PRC-117G, AN/PRC-152A, AN/PRC-158, AN/PRC-160, AN/PRC-163, and AN/PRC-167 radios; Global Positioning System (GPS) receivers enabled by Selective Availability Anti-Spoofing Module (SAASM) or M-Code; support equipment; spare parts; technical manuals and publications; new equipment training; U.S. Government and contractor technical engineering, logistics, and personnel services; and other related elements of logistics and program support. The estimated total program cost is \$255 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a North Atlantic Treaty Organization (NATO) Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Poland's communications capability and contribute to its military goal of updating capability while further enhancing interoperability with the United States and other allies. Poland will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will L3Harris Technologies, Inc., Melbourne, FL. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require temporary duty travel of up to five (5) U.S. Government and/or contractor representatives to travel to Poland for a short period to conduct training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AN/PRC-117G delivers breakthrough wideband data speed and

legacy narrowband performance. Equipped with MUOS-ready hardware, this manpack is 30% smaller and 35% lighter than any other currently available. The AN/PRC-117G is also the industry's first and only tactical radio with NINE Suite B encryption, allowing for secure interoperability with the United States, NATO, and regional tactical partners.

2. The Falcon III AN/PRC-152A delivers simultaneous voice and high-speed data, seamlessly connecting dismount and upper-echelon networks. Even in challenging environments, the AN/PRC-152A provides voice, data, imagery, and video, giving warfighters critical mission intelligence for enhanced decision-making.

3. The Falcon IV AN/PRC-158 delivers dual-channel connectivity across the full 30-2500 MHz frequency range. Compact and lightweight, the MCMP provides forward-deployed warfighters with an unrivaled level of tactical communications flexibility. Equipped with a Software Communications Architecture (SCA) and a broad portfolio of narrowband and wideband waveforms, the AN/PRC-158 ensures advanced interoperability and fast in-field updates for new capabilities. The manpack's two channels and superior routing and crossbanding technologies support communications redundancy and sharing critical voice and data intelligence, surveillance, and reconnaissance (ISR) with a variety of nets and sub nets.

4. The Falcon III AN/PRC-160(V) is the smallest, lightest, and fastest Type 1-certified high frequency (HF) manpack available today. Engineered for advanced security and performance, the Wideband HF/VHF Tactical Radio System features industry-leading encryption and breakthrough data performance and interoperability.

5. The AN/PRC-163 Multi-channel Handheld Radio is a versatile, secure solution that leverages crossbanding to provide simultaneous data & voice across SATCOM, Line-of-Sight, and Mobile Ad-hoc Networking (MANET) modes. As mission needs evolve, this software-defined handheld supports fast, in-field updates to new capabilities. An external mission module hardware interface allows warfighters to quickly add options including ISR video and SATCOM.

6. The AN/PRC-167 harnesses the power of multiple tactical devices converged into a single manpack. The radio provides superior communications range extension, delivering real-time situational awareness updates up and down levels

of command. Engineered to meet multi-domain challenges of any combination of ground, vehicular, and airborne missions, the manpack simultaneously and independently runs the full frequency range of a broad portfolio of waveforms on each of two channels. As mission needs evolve, this software-defined manpack supports fast, in-field capability updates.

7. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

8. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

9. A determination has been made that Poland can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

10. All defense articles and services listed in this transmittal have been authorized for release and export to Poland.
