Annual Responses: 18,000.

Needs and Uses: The information collection requirement is necessary for the Federal Voting Assistance Program (FVAP), an agency of the DoD, to fulfill the mandate of the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA of 1986 [52 U.S.C. 10301]). UOCAVA requires a statistical analysis report to the President and Congress on the effectiveness of assistance under the Act, a statistical analysis of voter participation, and a description of State/Federal cooperation. The data obtained through this study will allow FVAP to refine its methodology for estimating the number of overseas U.S. civilians who are eligible to vote and who have registered and participated in the past, and using these estimates to address the

question of whether the registration and voting propensity of the overseas civilian population differs from that of a comparable domestic or military population. Conducting this research will help FVAP meet its Federal and congressional mandates in terms of reporting annually on its activities and on overall voter registration and participation rates after each Presidential election. The data obtained through this study is also intended to provide insights into existing barriers to UOCAVA voting and recommendations for addressing these challenges.

Affected Public: Individuals or households.
