

disturbance having already occurred under previous approvals. The RMRP includes designs to reduce environmental impacts and to reclaim proposed disturbance. To ensure water quality requirements are met, reclamation includes a combination of earthen and synthetic reclamation cover systems.

Additional Alternatives

In addition to the Proposed Action, three action alternatives and the No Action Alternative are fully analyzed in the Draft EIS. Under Alternative 1, disturbance to public lands would be minimized by aligning the Dry Valley Area Haul Road/Access Road/Utility Corridor to avoid public lands and by not approving a Phosphate Use Permit associated with the Caldwell Canyon Service Road. Alternative 2 considers and analyzes impacts associated with not issuing the Federal lease modifications proposed by P4. Alternative 3 excludes any new disturbance and mining-related activities within designated Greater Sage-Grouse habitat to minimize impacts. The draft EIS identifies the Proposed Action as the Agency Preferred Alternative.

Public Involvement Process

The BLM will hold one virtual public meeting. The specific date of this meeting will be announced in advance through BLM's National NEPA Register (ePlanning) website <https://eplanning.blm.gov/eplanning-ui/project/2026858/510>. Information on how to register for the online meeting will be posted on the above website.

The BLM will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175 and other policies. Agencies will give due consideration to Tribal concerns, including impacts on Indian Trust Assets and treaty rights, and potential impacts to cultural resources.

The purpose of public review of the Draft EIS is to provide an opportunity for meaningful collaborative public engagement and for the public to provide substantive comments, such as identification of factual errors, data gaps, relevant methods, or scientific studies. The BLM will respond to substantive comments by making appropriate revisions to the EIS or explaining why a comment did not warrant a change.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your

personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
