#### SUPPLEMENTARY INFORMATION:

##### I. Background

During its normal regulatory review, GSA discovered that several of the Office of Management and Budget (OMB) Control Numbers (No.) listed in the General Services Administration Acquisition Regulation (GSAR) reference table at 501.106 were either omitted, incorrect, or had been updated (*i.e.*, Federal Acquisition Regulation (FAR) OMB Control Nos. (9000 series) that are applicable to GSA acquisition requirements). For any OMB Control No. added to the table via this final rule, an approved OMB Control No. already existed. However, the approved OMB Control No. was simply not reflected at 501.106 as intended.

##### *Miscellaneous Updates to GSAR 501.106, Table 1*

GSAR 511.171 and the corresponding OMB Control No. 3090-0300 are added to the table.

Clause 552.238-119 and the corresponding OMB Control No. 3090-0303 are added to the table.

Provision 552.270-1 and the corresponding OMB Control No. 3090-0086 are added to the table.

GSAR 570.117 and the corresponding OMB Control No. 3090-0086 are added to the table.

GSAR 570.702 and the corresponding OMB Control No. 3090-0086 are added to the table.

Lastly, GSA Form GSA-7437 and its corresponding OMB Control No. 3090-0274 are added to the table. OMB Control No. Update to GSAR Provision 552.270.1.

Further review identified that the OMB Control No. referenced in GSAR provision 552.270-1 was incorrect.

The current OMB Control No. 3090-0163 referenced in GSAR provision 552.270-1(f) is not accurate and is not needed in the provision. This OMB Control No. applies to procurement-related information collections associated with solicitations issued for various supplies and services in accordance with the Federal Acquisition Regulation (FAR) Part 12, 14, 15 and 16 procedures.

3090-0163 was therefore replaced with OMB Control No. 3090-0086 in the table at 501.106 as it is specific to GSA lease solicitation information, which is used to obtain information about property being offered for lease to house Federal agencies and to obtain pricing information regarding offered services and lease commissions. Therefore, OMB Control No. 3090-0086 is more appropriate for the GSAR prescription 570.702 and GSAR provision 552.270-1.

GSAR provision 552.270-1 is amended to remove the paragraph (f), which currently references the incorrect OMB Control No. Additionally, including an OMB Control No. is not a normal convention for a provision or clause; therefore, to be consistent with GSAR provisions and clauses, this paragraph is removed.

##### II. Publication of This Final Rule for Public Comment Is Not Required

The statute that applies to the publication of the GSAR is the Office of Federal Procurement Policy statute (codified at title 41 of the United States Code). Specifically, 41 U.S.C. 1707(a)(1)

requires that a procurement policy, regulation, procedure or form (including an amendment or modification thereof) must be published for public comment if it relates to the expenditure of appropriated funds, and has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure, or form, or has a significant cost or administrative impact on contractors or offerors. This rule is not required to be published for public comment because GSA is not issuing a new regulation; rather, this rule is technical in nature and is merely updating information in the table located at GSAR 501.106 and removing an incorrect OMB Control No. reference at GSAR provision 552.270-1.

**III. Executive Order 12866, 13563 and 14094**

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. E.O. 14094 supplements and reaffirms the principles, structures, and definitions governing contemporary regulatory review established in E.O. 12866 and E.O. 13563. The Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget (OMB) has determined this rule is not a significant regulatory action and, therefore, is not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993.

**IV. Congressional Review Act**

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a “major rule” may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The General Services Administration will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States. A major rule cannot take effect until 60 days after it is published in the

**Federal Register.** OIRA has determined this rule is not a “major rule” under 5 U.S.C. 804(2). The Office of Information and Regulatory Affairs in the Office of Management and Budget has determined that this is not a major rule under 5 U.S.C. 804.

**V. Regulatory Flexibility Act**

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) does not apply to this rule because an opportunity for public comment is not required to be given for this rule under 41 U.S.C. 1707(a)(1). Accordingly, no regulatory flexibility analysis is required and none has been prepared.

**VI. Paperwork Reduction Act**

The Paperwork Reduction Act (44 U.S.C. chapter 35) does apply; however these changes to the GSAR do not impose additional information collection requirements to the paperwork burden previously approved under the Office of Management and Budget Control Numbers referenced in the rule.

#### SUPPLEMENTARY INFORMATION:

##### Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

On July 3, 2024 NMFS published the proposed rule to authorize the taking of marine mammals incidental to the Q8 bulkhead repair and replacement project at NAVSTA Norfolk. During the 30-day comment period of the proposed rule NMFS received two comments. NMFS responded to the two comments in the original final rule (89 FR 81848, October 9, 2024).

NMFS published the final rule on October 9, 2024 (89 FR 81848), which allows for authorization of the take of small numbers of four marine mammal species incidental to the Q8 bulkhead repair and replacement project. This project involves work on the bulkhead from Piers 12 and 14 to restore function of this Navy dock system. Vibratory and impact hammers will be used for pile removal and installation. Sounds produced from these pile removal and installation activities may result in the incidental take of marine mammals, by Level B harassment only. Approximately 378 piles will be removed and 836 piles will be installed. Work will be conducted in 3 phases over 212 non-consecutive days to complete the pile removal and installation activities.

The original effective dates finalized in the rule (89 FR 81848, October 9, 2024) were January 1, 2025 through December 31, 2029. Recently, the Navy's construction schedule has been delayed, and as such, the Navy has requested NMFS delay and modify the effective dates. This final rule will delay the effective date from January 1, 2025 to August 4, 2025 and modify the expiration date from December 31, 2029

to August 3, 2030. This delay and modification of effective dates do not change the duration of the incidental take regulations or change any of the findings and take estimates or the requirements for mitigation, monitoring, and reporting, in the original final rule.

#### Administrative Procedures Act

The Assistant Administrator for Fisheries (AA) finds that there is good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B), because prior notice and opportunity for public comment on this temporary delay is unnecessary and contrary to the public interest. Such procedures are unnecessary because the final rule that published on October 9, 2024 (89 FR 81848), has already been subject to notice and comment, and all that remains is to notify the public of this delay and modification to the effective dates of the previously noticed regulations. Providing additional prior notice and opportunity for public comment is contrary to the public interest because there is a need to immediately implement this action to delay the original January 1, 2025 effective date and modify the expiration date of the regulations contained in 50 CFR 217.231. Failure to modify the effective dates risks a potential lapse in coverage for the Navy's construction activities for the Q8 bulkhead repair and replacement project at NAVSTA Norfolk.

Dated: December 19, 2024.
